

## 300 Communists Under Arrest In Madras

### To Keep Highway Open If Traffic Laws Adhered To

Works Minister E. C. Carson said today that if bus and truck companies abide by the works department's restrictions on loads and speeds during the spring thaw it will not be necessary for his department to close the Island Highway to all traffic.

The department during the week-end warned that a closure of the highway may be necessary because of the heavy damage being done to the highway while the frost was coming out of the ground. Earlier the department had placed load and speed limits on vehicles using the highway during the spring break-up.

Mr. Carson said that bus and truck companies were not co-operating with the department.

"If they won't we'll have to clamp down," said the minister. "If they will only co-operate with us we will play ball with them," he continued.

Mr. Carson said that no damage was being done to most of the 175-mile-long Island Highway because it is new construction which the frost has not damaged badly. But sections between Duncan and Ladysmith and north of Nanaimo were being badly damaged by traffic while the highway was soft.

#### NO ALTERNATIVE ROUTES

The minister said that it would be impossible to close only these two sections of the highway because there were no alternative routes. If a closure were necessary it would be for the whole highway.

N. W. Macpherson, deputy works minister, said that no closure had yet been placed on the highway and the department hoped it would not be necessary to impose one.

He said the situation had not improved any during the week-end, since the threat of the closure had been made known.

### T.C.A. Plane Clips 19 Minutes From Atlantic Record

MONTREAL (CP)—Traveling so fast that he got ahead of himself, Capt. Colin N. Campbell last Tuesday set a record for the west-to-east Atlantic flight.

The transport pilot was surprised when he sighted Ireland. He thought he was well out over the ocean.

Capt. Campbell flew his four-motored North Star from Montreal to London in 10 hours and 11 minutes, clipping 19 minutes off the mark set last year.

The 30-year-old Trans-Canada Air Lines captain, who returned here during the week-end, said his air speed at the 21,000-foot cruising altitude was a normal 246 miles an hour. A following wind sometimes reaching 170 miles pushed him along at a ground speed of 416 miles an hour.

Fastest part of the trip was across the 2,000-mile stretch of Atlantic between Gander, Nfld., and Ireland. Campbell made it in four hours and 56 minutes without even pushing his plane.

### French Army Officer Admits He Gave Papers To Foreigners

PARIS (AP)—The French government said today a Communist army major had confessed turning army documents over to "a foreign military attaché."

The attaché was not identified, nor was the country he represents named.

A communique issued by the Interior Ministry said an army captain was questioned about his "relationship" with the major and about "defence documents" he is

It Makes A Pretty Picture But Imagine Fighting There

Arctic warfare training at the Canadian Army's northerly outpost at Fort Churchill, Man., is being pushed ahead rapidly. Shown above is the headquarters of the Royal 22nd Regiment from Quebec, with two of its members building an igloo, and a dog team under Maj. S. B. McDonald of Cornwall, Ont., setting out on a training run. The army is finding answers to problems of conducting warfare in the Arctic, not the least of which are eating, sleeping and working.

### LATEST \$100,000 Curling Rink Near Arena Planned; To Ask City For Property

Plans to build a \$100,000 curling rink near the Memorial Arena are being formulated by a group of Victoria men who believe their action will be welcomed by many natives of the city as well as hundreds of prairie people who have moved here in the last few years.

Heading the group is Max Zabel, owner of the Dominion Hotel, who, with W. J. Hyde and Colin Wells, will interview the City Council Tuesday on the plan.

Mr. Zabel told the Victoria Times today the group will ask

### 2 Russians Shot, 200 Arrested On Disclosure Of Jewel Theft

BERLIN (AP)—The American-licensed newspaper Der Abend reported today two Russian colonels were shot and 200 other Russians arrested after disclosure of a huge jewel theft within an official Soviet agency.

The anti-Communist newspaper charged the scandal was responsible for closing the Berlin office of the Soviet foreign trade ministry several months ago.

Der Abend said the exact size of the theft has never been determined. But it was reported to include millions of marks' worth of

the city for a grant of land adjacent to the arena and also that refrigeration service from the arena be provided.

It is planned to finance construction of the curling rink through sale of stock.

#### SIX ICE SHEETS

The rink would have six sheets of ice, each 14 feet wide which, it is estimated, would be sufficient for a club of 400 members.

Type of building for the rink, which would include clubrooms,

has not been chosen. A delegation from the group interested in the proposed project will visit Vancouver later in the week to inspect a rink under construction there.

Mr. Zabel said use of a quonset hut type of construction would be considered.

He thought a curling rink would bring extra business to Victoria. Visitors from the prairie who come here for a month each winter would stay for three months if they could play their favorite sport, he claimed.

### Shanghai Prices Soar

SHANGHAI (AP)—Shanghai's cost-of-living index today hit 643 per cent above the level of Aug. 19. It has jumped 84 per cent in the last two weeks.

#### McCormick Sees Peron

BUENOS AIRES (AP)—Col. Robert R. McCormick, publisher of the Chicago Tribune, had a four-hour visit Sunday with President Juan Peron at the President's country residence. Peron presented the medal of the Peronista party to McCormick. The president said the Chicago Tribune reported honestly news about Argentina and Latin America.

### Big Egg Reported

NIAGARA FALLS, Ont. (CP)—A Rhode Island Red hen owned by Henry Markle made a special effort Sunday and presented him with an egg weighing 6½ ounces. The egg measures 3½ inches around the middle and nine inches around the ends.

### Labor Nationalization In Britain To Be Expanded

LONDON (AP)—The Labor Party was reliably reported today to have decided to continue and expand its program for government ownership of basic industries but with some exceptions.

Reliable informants said nationalization of sugar refining and the water supply are already on a tentative general election platform for the Labor Party in 1950.

The statements were made after a closed two-day meeting of Labor Party leaders and

### Caught In Snowbank, Crushed By Train

CRANBROOK (CP)—James Thompson, a carpenter foreman, today suffered fractures of both arms, a jaw fracture, badly crushed shoulder and head injuries when he was crushed by a railroad car here.

Thompson was caught on the railway tracks when a runaway train careened down a hill toward him. He was trapped by steep snowbanks on either side.

He threw himself tight to one snowbank and three cars of the runaway train roared by him. The fourth car jumped the track and crushed him. He was rushed to a Cranbrook hospital in a special train.

### Attitude Of Reds In India Bordering On Open Revolt--Nehru

### Thirteen States May Bar Reds From Public Jobs

WASHINGTON (AP)—Thirteen states are considering proposals to bar Communists from public jobs.

Some measures now before legislatures would require people on public payrolls, including teachers, to take loyalty oaths.

Other bills are aimed at keeping Communists out of a wide range of positions.

Maryland and Illinois are studying suggestions for outlawing the Communist Party.

Moves are under way in other states to put a crimp in the party line in one way or another.

In New York, all civil service employees of state and city governments and teachers and professors would have to take non-Communist oaths.

#### OKLAHOMA, NEBRASKA

Oaths of loyalty or allegiance to the U.S. would be required of public school teachers and college and university professors in Oklahoma, Nebraska and New Hampshire.

All public officials and candidates for public office would have to do likewise in California. The word "Communist" is used in some states. In others references are made to "subversive organizations."

The meaning of the bills and the reasons they are offered seem to be clear. Assemblyman Frank J. McMullen (R-Brooklyn), sponsor of two New York bills, said:

"As a nation we have taken a stand against Communism in our foreign affairs and have appropriated billions to fight it. At the same time we should bar these people who owe their allegiance to a foreign ideology from holding posts in our state or municipal governments."

### Ss. Washington Mail Refloated On Sound

PORT TOWNSEND (AP)—Ss. Washington Mail, which ran aground off Port Townsend Sunday, was pulled free by tugs.

The U.S. Coast Guard reported today the American Mail Line ship was under tow to Seattle for repairs. Five Foss Company tugs and an army tug were reported to have hauled the 482-foot vessel off the beach.

She ran aground on Marrowstone Island, six miles from here, during a heavy fog. The 7,680-ton vessel was reported to be carrying a crew of 51 and passengers.

The Puget Sound Freight Lines motor vessel Indian, nearby when the Washington Mail went aground, reported it nosed into the ship and held her from going farther onto the beach.

### Ulster M.P.'s To Meet

BELFAST (Reuter)—The Northern Ireland parliament will meet here tomorrow for the first time since the recent general election won by the Unionist Party.

### \$25,000 Stairway At Empress Hotel

Construction of a new stairway from the first to the fifth floor of the Empress Hotel at a cost of \$25,000 has been started by David W. Burnett, city contractor.

New steel construction is being used to replace an old stairway

MADRAS (Reuter)—Three hundred Communists, including six women, are under detention in Madras province, K. M. Menon, minister in charge of prisons, said today to a question in the Madras Assembly.

NEW DELHI (Reuter)—Pandit Jawaharlal Nehru, Indian Prime Minister, told Parliament today the Communist Party's attitude now can be described as "bordering on open revolt."

Nehru said that in the last year Communists in India had "adopted an attitude . . . of open hostility to the government."

"This policy had been given effect intensively in certain limited areas of India and has resulted in violence, including murders, arson and looting as well as acts of sabotage."

"The House is well aware of Communist revolts that have taken place in countries bordering on India."

"It was presumably in furtherance of the same policy that attempts were made in India to incite the people to active revolt."

### Foiled By Popular Opinion

"Fortunately these attempts failed because of the strength of popular opinion against them and the action taken by the government."

The Prime Minister said a large number of prominent Indian Communist party members have gone underground and the government has "a mass of evidence" to indicate that "organized attempts are being made to conduct campaigns of sabotage, more especially on the railway system."

Nehru said that during the last

two days he had heard of three attempts to derail trains. The Communists were "deliberately seeking to create famine conditions by paralyzing the railway system so that foodstuffs should not be transported, the object being to create a general breakdown of chaos, a breakdown of administration and mass risings."

He said the revolutionary Communists had broken away from the Communist Party proper, but collaborated with them on some occasions.

### Five More In Bulgaria Plead Familiar Routine

By RICHARD KASISCHKE  
SOFIA (AP)—Five more Protestant churchmen pleaded guilty today in Bulgaria's spy trial.

By the end of the day's session, eight in all had entered guilty pleas. Seven others still must plead. All who pleaded guilty went through the now familiar routine, denouncing themselves, expressing repentance and pleading for a new chance to work for the Communist-controlled government.

All said they had seen the error of their ways in their opposition to Communism. All of them told the court that the secret security police who took their confessions of spying for Britain and the United States had displayed a "surprisingly noble attitude."

The first to take the stand today was the Rev. Georgi Chernov, 46, a baldish Pentecostal

pastor. He lost no time in pleading guilty, as the first three had done.

Like the others who had preceded him on the stand, Chernov launched into a long public confession of spying.

The others on the stand today were Lambri Marinov Mishkov, 41, of the Congregational Church; Georgi Nikolov Vassev, 48, of the Baptist Church; Haralan Ivanov Popov, 41, Pentecost Church, and Ioncho Nikolov Drianov, 41, Pentecost Church.

Vassev, like all the others, admitted spying and named two Americans. He said he had been asked by Dr. William Coon, identified as secretary-general of the Baptist mission in North America, and by a man named Leschner, called a Baptist youth leader, to collect information.

### All Scandinavia Expected To Join Atlantic Treaty

OSLO (AP)—High diplomatic sources predict that all Scandinavia—including traditionally neutral Sweden—probably will join the proposed North Atlantic defence pact within six months.

Norway already has prepared to cast her lot with the west. Denmark's principle political party, the Social Democrats, Sunday called on that country to face west in the quest for military security.

High officials of Sweden ac-

knowledgeed privately their country cannot hope to keep its delicate balance between the eastern and western power blocs much longer. They believe isolation fast is becoming impossible, and Sweden sympathy lies with the west.

A source close to Sweden's government speculated privately that Sweden will join the North Atlantic Alliance by autumn or "sooner, if the Russians make any move toward Finland."

### \$940,000,000 U.S. Aid To Britain 'Absolute Minimum'

WASHINGTON (AP)—Senator Tom Connally (Dem.-Tex.) said today he does not think there will be any "material change" in the \$940,000,000 recovery fund proposed for Great Britain.

Connally made this statement after the Senate foreign relations committee he heads had reviewed the British situation in regard to the Marshall Plan.

#### SECRET SITTING

The committee may consider the \$5,580,000,000 European recovery legislation behind closed doors tomorrow.

The review of the British situation was called after the British under-secretary of foreign af-

fairs, Christopher Mayhew, had told a United Nations group that Britain has achieved recovery.

Paul G. Hoffman, Economic Co-operation Administrator, told the committee the proposed funds for Britain represent a "tight fit"—the absolute minimum needed. He said any cut would "adversely affect continued recovery in both the United Kingdom and western Europe."

"Until Great Britain's earnings of dollars through exports and services to the United States and other hard currency areas are sufficient to pay for the essential imports she must have, she will still need American aid," Hoffman said in his testimony.

# One Woman's Day

By NANCY HODGES

## SPRING FEVER

NOW THAT TANTALIZING shafts of sunshine are finding their way through the windows of the Legislative galleries, and we no longer emerge from temporary hibernation in the Chamber's depths to find Old Man Winter still holding sway, there are unmistakable signs of spring fever stirring in the members' breasts.

On corridors and in caucus rooms you hear snatches of conversation about rods and reels, reminiscences of big ones that got away, and other little signs and portents of the urge to go fishin'.

And up-country members, sniffing at the feeling of spring in the local air, gloomily read letters from home recording that their particular bailiwick is still overwhelmed by the heaviest fall of snow seen in decades.

## GARDENS GROWING

IN THE EARLY HOURS of the last few mornings I have gone out to rediscover the garden, from which the veil of snow has at last been lifted. And I marvel again at the endurance of seemingly frail little plants which I thought had been doomed to die under the unaccustomed white pall.

But, although here and there are signs of that odd complaint known as "heaving" wallflowers and polyanthus are perking up, and the daffodil's spikes are so eager to "get going" that you can almost see them shooting up.

All over the place the snowdrops are nodding their heads and the forsythia on the fence is flaunting its little yellow blossoms. And, needless to say, the weeds have survived and look more vigorous than ever.

## BIRDS GETTING BUSY

THE BIRDS, WHICH HAVE been having a pretty thin time this winter in spite of extra attention from us in the shape of succulent bits of fats and crumbs, are showing all the symptoms of their own particular brand of fever.

The pheasants have been strutting over the rocks and stopping to fill themselves at their own particular Halfway House—which also happens to be our tulip bed—Mr. Cock Pheasant looking more like a Beau Brummel of the feathered world than ever.

As to his more dowdily-clad 'Missus', she trots along in the rear behind her lord and master, looking devotedly domesticated and absurdly lovesick.

## QUAIL QUERY

OUR OLD FRIENDS the quail temporarily disappeared during the dark, wintry mornings, but I have just seen a couple of them scurrying up the path, looking up at the cypress as if house-hunting.

And I have a feeling that, somewhere out of sight, younger members of the local community, who first appeared on the scene last year, are pairing off and making their own domestic arrangements, preliminary to appearing later in the season with funny little babies of their own.

And the early morning chorus of songs and twittering in the trees that greets us suggests that all the other little feathered denizens of our particular plot are intent upon the same sort of family business.

## CATALOGUE-ITIS

IN MY OWN particular case, the spring fever always hits me in the same way. I break out in a rash of catalogue-itis, aggravated by an itch, if not necessarily green, thumb, which has spasms of wanting to get out and grub among the rocks.

When the fever is at its height, my chart shows alarming variations as I waver in hopeless indecision between the showy, exotic charms of this flower and the less blatant but more enduring features of that plant.

And it doesn't relieve me much to know that, in common with all sufferers from my sort of spring fever, a time of convalescence will come when I shall wish I had been a bit more adventurous and chosen something entirely different!

## Firemen Attend Wide Assortment Of Alarms Sunday

From 8.40 Sunday morning until 10.25 at night, city firemen were called out seven times. The calls they attended were: 8.40: A woman who was locked out of her apartment and sought the firemen's help. 9.17: Roof fire, 1103 View Street.

10.16: Trouble with oil burner at 2819 Graham Street. 2.43: Grass fire at 246 Gorge Road.

7.58: Sprinkler alarm at Dalziel Box Factory, false alarm. 10.02: Box alarm to Hillside and Cook, false alarm. 10.25: Rubbish fire at 1016 Linden Avenue.

P.S.: Firemen put out a chimney fire at 841 Burdett Avenue at 7.17 this morning.

## British Say Canada Top-Priority Market

DERBY, Eng. (Reuter)—P. C. Gordon-Walker, parliamentary under-secretary for commonwealth relations, said Saturday night it is "quite false" to say Britain is deliberately selling to eastern European countries goods which could have been sold to Canada.

Gordon-Walker addressed the local branch of the Overseas League.

"The true story is not that we have negligently or foolishly disregarded the Canadian market," he said. "On the contrary, it is regarded as a top-priority market."

"There is no evidence at all that our manufacturers have been unable to accept contracts from Commonwealth countries because of orders undertaken for foreign countries."

"Our trade with eastern Europe is an addition to, and not a subtraction from, our trade with Canada and the rest of the Commonwealth."

"There can be no greater immediate contribution to our own recovery and to the strengthening of the mutual ties of the Commonwealth than to send more and more goods to Canada."

## STERLING-DOLLAR PLAN

LONDON (CP)—The Sunday Times, in its finance and industry column, said the long-term cure for Anglo-Canadian trade difficulties is the restoration of sterling-dollar convertibility.

As Sir Stafford Cripps, Chancellor of the Exchequer, told the Canadian Press in an interview last Tuesday, the paper says, Britain's power to buy Canadian goods is limited to the amount of dollars which they can earn.

"The long-term cure is clear. It is the restoration of convertibility between sterling on the one hand and the American dollar on the other—in other words, 'A sterling-dollar union.'"

## University Students Addressed By Drew

MONTREAL (CP)—Ian Campbell of Carleton College, Ottawa, was elected president of the Progressive Conservative Student Federation at the conclusion of the national convention held during the week-end at McGill University. Five hundred students representing 12 Canadian universities attended the meeting.

George Drew, national Progressive Conservative leader, was elected honorary president of the group.

The convention adopted several resolutions during the two-day meeting, including one urging the establishment of a joint Senate and Commons committee to set a policy on atomic energy. Delegates called for a royal commission to study the problem of Senate reform.

Addressing the convention Saturday, Mr. Drew said Canadians are wholly unaware of the extent to which parliament is being asked to establish Socialist doctrine in Canada.

"We are fighting for personal freedom right here and now in Canada. That is the great fight of the Progressive Conservative Party," he said.

It is difficult for Canadians to believe that state ownership and control of production and economic resources could become an immediate reality, Mr. Drew stated.

## Mingan Seigneury 288 Years Old Friday; Feudal Link

QUEBEC (CP)—Ownership rights to the Seigneury de Mingan, one of the last remaining links with Quebec's feudal past and 288 years old Friday, once were purchased for less than \$50,000. What the land itself cost is not known.

The vast holdings, stretching for 150 miles along the north shore of the Gulf of St. Lawrence and six miles deep, now are owned by the Labrador Company of Montreal, although Martin's Bank of Liverpool, England, holds 100 per cent of the shares. The Quebec government has taken steps to expropriate the seigneury at a price ranging between \$90,000 and \$300,000.

An English biscuit-maker from London, who recently said he had a claim on Mingan, estimated its worth at \$100,000,000. His claim has been described as "crazy." Still another claim that the seigneury is owned by the Roman Catholic Archbishop of Quebec has been discounted by a spokesman for the Archbishop.

It all started back on Feb. 25, 1661, when Francois Bissot became the first Seigneur de Mingan. He was granted the lands by the "Western Indies Company," which held title rights from the king of France to the territory extending from Tadoussac to the Atlantic.

## Kinsmen Sponsor Air Cadet Squadron

Victoria Kinsman Club Friday night took over sponsorship of the local branch of the air cadets.

The cadet group will now be known as the No. 89 (Kinsman) R.C.A.C. Squadron, and will wear shoulder patches bearing this insignia.

Since December, 1946, the cadet squadron has been under the sponsorship of the Air Force Officers' Association. The need for the backing of a local service club was felt and the Kinsman Club, which became air-minded when it put on an air show at Patricia Bay airport last September in conjunction with the Victoria Flying Club, decided to take on the job.

## Few Accidents

One person was only slightly injured and there was no heavy damage done in the few accidents which occurred during the week-end in Greater Victoria, police of the area reported.

Mrs. M. J. Maxwell, 1498 Derby Road, suffered shock when the parked car in which she was sitting was struck Saturday night by another car driven by James M. E. McFarland, 3225 Shelbourne Street, city police said.

A car which sideswiped one driven by Edwin B. Baldwin, 1040 North Park Street, on 1040 Quadra Street, Saturday night, did not stop.

## Injury Will Keep Dick Birch Out Of National Tourney

MONTREAL (CP)—Dick Birch, 1948 Canadian singles champion, injured his left leg in an exhibition match Sunday and will be forced to miss the Dominion badminton championships opening here Wednesday.

The Toronto Carlton Club veteran tore muscles in his leg when he fell reaching for a shot in a match at the Montreal Badminton and Squash Club where he has been prepping for the title meet. He is expected to be sidelined for several weeks.

The absence of Birch, who was a heavy favorite to retain his crown, shifts the favorite's role to Johnny Samis of Vancouver, who arrived by plane Sunday with teammate Ken Meredith. Second choice to take the title will be Montreal's Gordie Simpson, the Quebec provincial champion.

## French Ski Team Captures Honors In Canadian Meet

MONT TREMBLANT, Que. (CP)—Five men and a girl, all members of the French national ski team, walked off with all but one of the main events in the Canadian downhill and slalom championships held here during the week-end.

The flying Frenchmen dominated each of the four races in the two-day meet which ended here Sunday, with the exception of the women's downhill, where Mrs. Rhoda Wurtele-Eaves won out by a sizable margin.

Georges Panisset, 19, youngest member of the French team, walked off with top honors, winning the slalom event in 2:00.4 and placing second in the downhill run, to emerge as Canadian combined champion.

Other marks fell like clay pigeons to the sharpshooting French national team with Jean Pazzi, 26, from Alpes Maritimes, winning the senior downhill and Mrs. Lucienne Coutter, Schmidt, taking the lead in the women's slalom and combined.

Canadians who headed their sections were Richard Halls of the Montreal Skigulls Club, who took the junior men's slalom and combined; Ardy Tommy, junior men's downhill; Lucille Wheeler, St. Jovite, Que., junior women's downhill, and Ann Bushell, junior women's slalom and combined.

## R. Conacher Holds One-Point Margin In Scoring Battle

Chicago's snappy snipers, Roy Conacher and Doug Bentley, continued their tight battle for the National Hockey League scoring leadership over the week-end, collecting two points apiece as the Hawks played two draws. Conacher boosted his total to 62 points with a goal and assist while Bentley upped his to 61 with two assists.

Bentley's Paul Roppy, reaping points at a faster rate than any one during the last month, hit the select circle for the first time. He added an assist to move into a sixth-place tie with 39 points.

Leaders follow: G. A. Pts. R. Conacher, Chicago 62 D. Bentley, Chicago 61 P. Roppy, Chicago 39 J. Conacher, Chicago 38 M. Molteno, Chicago 37 R. Reay, Montreal 36 R. Hodan, Chicago 35 R. Roppy, Boston 34

## Portland, Tacoma Win Coast Hockey

Oakland is back in a first-place tie with Fresno in the southern division of the Pacific Coast Hockey League. A 6 to 1 victory over San Diego Sunday night put the Oaks back in the front rank.

Fresno had wrested the leadership away from the Oaks the past week by winning three and losing none. Oakland won two and lost two.

In the northland, Portland and Tacoma came through with wins to remain tied for second place in the northern division.

Portland, playing on its home ice, shellacked San Francisco 8 to 3, while Tacoma moved into Seattle to score a 4 to 1 win over the Ironmen.

New Westminster leads the northern sector by a comfortable 6½ games.

## Set Closing Date For Soccer Entries

Lower Island Junior and Juvenile Football Association will hold its regular meeting at St. Louis College, March 7, at 8, when entries will close for the local cup ties and provincial series.

League officials announced today the transfer date has been extended to March 31.

Complete list of trophies at stake follows:

First Division Juvenile—Reg. Hayward Jr. Cup, lower island championship; Reg. Hayward Jr. Cup, league championship; Whitaker Cup, local knockout. Second Division Juvenile—Daily Colonist Cup, league championship; H. H. Brown Cup, local knockout; Dr. Lewis Hall Cup, lower island championship. Third Division Juvenile—Reg. Hayward Jr. Cup, league championship; Little and Taylor Cup, local knockout; Carey Cup, lower island championship. Fourth Division Juvenile—C. V. Milton Cup, league championship; New Method Laundry Cup, local knockout; Barnes Cup, lower island championship. Reg. Hayward Jr. Cup, island championship. Fifth Division Juvenile—Jack McCall Cup, league championship; Clarke and Cordick Cup, local knockout; Victoria Baggage Cup, lower island championship; Tifftum Athletic Club Cup, island championship.

## Six Lose Lives When Manitoba House Burns; Rescue Impossible

MORDEN, Man. (CP)—A sorrowing mother went ahead today with plans for the burial of five of her daughters, victims of an early morning fire that also snuffed out the life of a sixth person.

Mrs. Kathleen Neufeld, 46, whose husband died one and a half years ago, hurried back here from a visit to Winnipeg to face the tragedy that took the

lives of daughters ranging in age from eight to 21. The girls were Nettie, 21; Annie, 19; Helen, 14; Sadie, 10, and Marjorie, eight.

John Storey, a 19-year-old Morden youth who had for the last two months boarded at the two-story, frame dwelling occupied by the Neufelds, also perished in the fire. The young man had been engaged as a helper by a local cattle buyers.

Morden is about 70 miles southwest of Winnipeg and only a few miles away from the North Dakota border.

Almost simultaneous alarms on the fire, which broke out around 3 a.m. Sunday, were turned in to telephone operator Alice Scales at the local exchange by D. B. Reimer and John H. Loewen. Miss Scales said that acting on Loewen's telephone call, she had sounded a siren immediately to call out the Morden brigade numbering 30 members.

Frank Neufeld, an uncle of the girls, Reimer and a son, Dave, along with Loewen and another neighbor, Cliff Minty, were first on the scene. Minty said he had scaled a ladder brought along by Dave Reimer in an effort to save someone from the upper floor, where the bedrooms were located. He said thick, black smoke billowed out when he smashed a window and entry was impossible.

PARIS (Reuter) — Very Rev. Hewlett Johnson, Dean of Canterbury, was here today to participate as a defence witness in the libel suit brought against the Communist weekly, Les Lettres Françaises, by the Soviet-born author, Victor Kravchenko, over the authorship of the book "I Chose Freedom."

## Old Man Beaten To Death; Jobless Ontario Youth Held

BROCKVILLE, Ont. (CP)—Leo Daniel Parent, 17-year-old unemployed youth of Cornwall, Ont., was held today on a charge of murder following the death of a 73-year-old Brockville pensioner, Michael (Mike) Skelton.

Two other men, Thomas Dixon, 27, of Cornwall, and Nick Thermen of Bainsville, Ont., were also in Brockville cells as material witnesses. Parent is expected to be charged in magistrate's court Tuesday.

Skelton died in a hospital Saturday six hours after he had been brutally clubbed about the head and locked in his lonely Elizabeth Township shack, about 200 yards east of the town limits. The clubbing took place about 11 a.m. E.S.T. Saturday.

Police said they believed three men shared Skelton's shack Friday night and that some wine had been consumed.

Blood-soaked and the back of his head crushed, Skelton crawled through a four-and-a-half-foot high window in his shack and made his way to the home of neighbors, Mr. and Mrs. William Dean, a distance of 175 yards.

He carried a small hatchet in one hand. Blood ran down the handle. A "shocked" Mrs. Dean, 70, opened her door.

She was "horrified," she said, "to see Mike Skelton standing there. He just stood and stared at me. Then I noticed the blood."

From the Dean's house Skelton was taken to the hospital, where he died.

## Triple Slayer Killed By Police

PHOENIX, Ariz. (AP)—The vicious triple slayer, Bill Ray Gilbert, made good his boast he never would be taken alive.

Surprised while taking a shower in a tourist camp cabin, the Arizona ex-convict fell dead before a blaze of police gunfire Sunday night. His naked body was riddled with 12 bullet holes.

Gilbert almost made good his second boast—"I'll take two officers with me when I die." He shot a policeman three times in the leg.

The 28-year-old ex-convict killed a woman and two men near Needles, Calif., last Wednesday. The gun battle with police ended a crime foray in which Gilbert and a prison pal, George Adolph Schmid, 22, kidnapped a Phoenix woman, killed the three Californians, and returned to Arizona with a plan to kill the state prison warden and other officials.

Schmid was captured without resistance by two city policemen here early Sunday as he tried to reach his mother's home. He was armed with two pistols.

## Fly Doctors To Sub-Arctic To Check Eskimo Epidemics

WINNIPEG (CP)—The mysterious plague now threatening a 40,000-square-mile area in Canada's sub-Arctic is actually two separate epidemics, Dr. W. J. Wood, regional superintendent of Dominion Indian health services, has reported. Dr. Wood is co-ordinating plans for a projected mercy flight to Chesterfield Inlet, 1,000 miles north of Winnipeg.

The medical authority said he suspected the area had been swept by an epidemic of nervous disease caused by some virus and also by food poisoning. The food poisoning may have been caused by whites and

Eskimos storing Caribou meat before cold weather set in and allowing it to rot.

Health Minister Martin said in Ottawa last week the cause of the epidemic was obscure.

A civilian pilot at Churchill, G. Ingebrigtsen, reported during the week-end that five northern posts in the area already had been placed under quarantine. They include Chesterfield Inlet and Baker Lake.

Meanwhile, the R.C.A.F. is preparing to fly four doctors into the north. They are scheduled to take off from Winnipeg Tuesday in a ski-equipped Dakota aircraft.

## Chinese Group Satisfied Reds Sincere For Peace

NANKING (AP)—A spokesman said today the unofficial delegation to Peiping was satisfied as to the Communists' sincerity for peace.

Chang Feng-chou, secretary to delegate Shao Li-tze, made the statement at a press conference. The delegation returned to Nanking during the week-end.

Members were reporting to Acting President Li Tsung-jen, whose hand in efforts to deal with the Communists was strengthened by the return to the capital of Premier Sun Fo from Canton.

Chang declined to discuss whether the mission had returned from the Communist area with concrete plans for peace. He said the mission's sole purpose was to learn whether the Communists were sincerely in favor of ending the war.

"In this regard the mission was a complete success," Chang said. Both Nationalists and Communists regarded the mission as unofficial.

From other sources it was learned that Shao brought a letter to Li from Mao Tse-tung, China's No. 1 Communist.

## Plane Parachutes Supplies To Hamlets; Spring For B.C.

VANCOUVER (CP)—British Columbia's worst winter in 47 years received an emphatic "goodbye" today as balmy weather heralded the long-awaited spring—at 50 degrees above.

The strange winter ushered out February in strange ways: A thousand golfers belted their over four playable Vancouver courses, 200 skiers sashayed over golf course at Nelson, thousands of Vancouverites strolled and clicked cameras in Stanley Park, 50 fishermen sought out the elusive rainbow trout in Kootenay Lake, hundreds of lower mainland residents sat on their lawns—a little brown—at Kitsilano Beach.

To add to the contrasts, an R.C.A.F. Dakota dropped two tons of food and livestock fodder to two tiny hamlets isolated by winter in the Kootenays. And in the Fraser canyon area, small snow-rock slides derailed the engine of an eastbound Canadian National freight train at Stout, B.C., and the truck of another locomotive north of Kamloops.

Both derailments were minor and no injuries were reported.

The Dakota took four and a half hours to complete the trip to the ice-locked communities of Halcyon and St. Leon Hot Springs on Upper Arrow Lake, 250 miles east of here. The communities were reported to have only 48 hours' supplies left.

In 17 runs the 10 crew and two newspaper men aboard the black-and-yellow plane heaved out 21 bales of hay and 10 crates of feed grains, staple foods and tobacco.

## U. Of A. Awards Three Honorary Degrees

EDMONTON (CP)—The University of Alberta announced today honorary degrees of doctor of laws will be given three persons—Senator W. A. Buchanan of Lethbridge, Dr. J. S. Thomson, president of the University of Saskatchewan at Saskatoon, and Msgr. Vandry, rector of Laval University at Quebec City.

## Weather

Weather synopsis and official forecast issued at 9 a.m. Feb. 28 by the Dominion Public Weather Office at Vancouver, valid until midnight, March 1.

Synopsis — Southern B.C.'s four-day spell of clear mild weather is due to end late today. A storm which is already causing southeast gales and rain over the Queen Charlotte Islands will move across the entire coast tonight and over the interior tomorrow. The weather Tuesday will be showery and mild in the wake of the disturbance.

Vancouver and vicinity, lower Fraser Valley, Georgia Strait—Clear becoming overcast this afternoon. Intermittent rain commencing by evening. Cloudy with scattered showers tomorrow afternoon and evening. Light winds increasing to southeast 20 tonight and reaching southeast 35 over the straits. Light southerly winds tomorrow. Continuing mild. Low tonight and high tomorrow at Vancouver airport 38 and 45. Abbotsford 38 and 45. Nanaimo 38 and 45.

West Coast Vancouver Island—Overcast. Intermittent rain commencing by afternoon. Cloudy with showers tomorrow. Southeast winds 15 increasing to southeast gales 40 this afternoon. Southwest 28, 25 tomorrow. Continuing mild. Low tonight and high tomorrow at Estevan Point 38 and 45.

## Settlement Ends Threat Of Big Power Strike In New York

NEW YORK (AP)—The threat of a 28,000-man utility strike—which a C.I.O. Union said would have made a "dead city" of New York—was canceled Sunday night.

The threatened walkout against the huge Consolidated Edison Company, one of the world's biggest utilities, was called off at the end of a four-hour bargaining session.

The walkout had been threatened for midnight Tuesday. The agreement provides a wage increase of seven cents an hour for all personnel and an additional five-cent increase for 17,000 workers. The union had sought a 15-cent hourly increase.

Meanwhile, in another New York City labor dispute, six major baking companies ceased operations, in answer to a union's strike threat against one of the firms. The companies supply the city with about 70 per cent of its bread and cake.

About 1,500 drivers and 6,000 inside workers were involved in the six-firm action, which the union termed a "lockout."

The union is seeking a \$10 weekly boost and a five-day work week instead of the current six.

## 2 Yugoslav Priests Get Death Sentence

BELGRADE, Yugoslavia (AP)—Two priests were reported sentenced to death today on charges of wartime aid to German and Italian occupation forces in Yugoslavia.

Borba, voice of Yugoslavia's Communist Party, reported the two "admitted their guilt." Borba identified them as Alfons Jarc, a monk, and Viljen Saveli, chaplain at Starigrad in western Yugoslavia, scene of some of the most bitter partisan fighting during the war.

Borba said also that two laymen, described as "cut-throats," were sentenced to die on the gallows and an unspecified number of others in a "collaboration group" were given prison sentences at hard labor ranging from five to 20 years.

NEW YORK (AP)—The Radio Corporation of America has reported net earnings of \$24,022,047 or \$1.50 a share in 1948 compared with \$18,769,557 or \$1.12 a share in 1947.

## Start Grass Cutting At D.V.A. Hospital

A real sign of spring was seen at the D.V.A. Hospital on Richmond Road today. City parks men were mowing lawns there.

Parks superintendent W. H. Warren, said it was the first time this year any of his department's fleet of mowers had been put to work.

It is not unusual for lawn cutting to be started this early in the year, though. Mr. Warren remembers when mowing has started as early as Feb. 10.

He reported that snowdrops and crocuses are making good showings in various parks and that Beacon Hill in particular was crowded with visitors Sunday.

(See "Church Attendance Jumps," page 15.)

## Claim Mindszenty's Former Treasurer Offers Guilty Plea

By ENDRE MARTON

BUDAPEST, Hungary (AP)—Joseph Cardinal Mindszenty's former treasurer pleaded guilty to black-market money dealings today.

The defendant, Monsignor Imre Boka, admitted to a people's court that he gave dollars and other moneys to different bankers and brokers for black-market sale, as the trial of 14 persons allegedly implicated in Cardinal Mindszenty's activities opened.

Boka declared he always got instructions from either the cardinal himself, or through his secretary. He also asserted the profits made through these black-market speculations were used for charity purposes.

## Save Baby's Life

Saanich firemen C. A. Button and R. Slater played the role of life-savers Sunday evening at the home of Mr. and Mrs. A. Streton, 3217 Quadra Street, by using the inhalator on one and a half year old Wendy Streton, who was suffering from convulsions and having difficulty in breathing.

When the firemen arrived they found the baby getting blue in the face, gasping for breath and limp. Wendy resumed normal breathing after the inhalator had been applied for 10 minutes.

## Dr. Gabor Horvath, secretary to Duke Paul Esterhazy, also pleaded guilty and said he had proposed to Esterhazy to purchase the dollars.

He said he wanted to take precautions in case Esterhazy's property should melt away as a result of nationalization. Horvath said he was aware that Estergom (residence of the cardinal) had been the source of the dollars.

The other defendants included 10 bankers and brokers and two priests.

## Modernize YOUR Range with "CYCLOS"

the OIL BURNER with CONTROLLED DEGREES of HEAT and SILENT POWERED AIR

Don't do anything about oil heat until you've investigated the amazing new "CYCLOS." Engineers praise its mechanical perfection and scientific principle. Canadian Standards Assn. approve it. Housewives are delighted with its clean, fast, efficiency. Stainless steel burner pot for long life and complete protection against oil leakage. Precision-engineered in every detail. Perfect draft provided by built-in silent fan unit. Oil is completely vaporized into a pure gas, eliminating all carbon, soot, smoke and smell. Oil and air intake are perfectly synchronized at low, medium or high or to any degree in between, insuring exact degree of heat desired.

NO WICKS — NO CARBON — NO SOOT — NO SMELL

"CYCLOS" IS AMAZINGLY DIFFERENT

## PUPPET SHOW

**MAURICE THOREZ, THE FRENCH** Communist leader, and Palmiro Togliatti, his opposite number in Italy, presumably being nearer to the fountain head of Marxist wisdom in the Kremlin than are the Stalinists in Britain, Canada or the United States, have made no bones about how they will choose sides if it comes to a decision between their native lands and Russia. Unlike their Canadian and American counterparts, who become vague and evasive when questioned too closely as to their main allegiance, the French and Italian chieftains have made the matter quite clear. "French Communists will welcome Russian soldiers if they ever chase an enemy onto French soil," says Thorez. Italian Communists would carry out their "duty to aid in the most efficient way" any Russian army that pursued "an aggressor" into Italian territory, says Togliatti. There was no qualification; there should be no misunderstanding. The French and Italian governments have had fair warning—and so have the peoples of the West.

In this connection the further comment of Togliatti must be causing grim amusement for one person in particular today. The head of the Italian leftists declared his followers would be ready, in aiding the Russian army against "an aggressor," to give that aggressor "the lesson he deserved." The man whom this phrase must interest most is one who had full experience of a previous Italian would-be dictator by the name of Mussolini, who also was much interested in the question of aggression. Haile Selassie, the Negus of Abyssinia, must view with mixed emotions this Italian fulmination against those who would invade a neighbor's territory.

While the Red leaders in France and Italy are thus extending their invitations to the Russian army to come in and take over at the first opportunity—for the Russian military occupation machine never leaves a country until it is firmly in the Kremlin's grasp—it is interesting to speculate on the personal life plans that they, as individual human beings, have in mind. The same query, of course, applies to the rest of Moscow's right-hand men—Rakosi of Hungary, Dimitrov of Bulgaria, Groza of Rumania, Gottwald of Czechoslovakia, Cyrankiewicz of Poland. If they ever had dreams of becoming great patriotic leaders of their respective nations they must by now have abandoned them. Marshal Tito of Yugoslavia demonstrated the fate of those who place their native land before Moscow's doctrine.

These Kremlin hirelings, of course, can hold power—unless they repudiate their ideological headquarters completely—only so long as they obey orders and play the Russian game. Having observed the fate of others they must know that when they have served the Kremlin's purposes they will be pushed aside without compunction. They must know that, having betrayed their countries, they have also betrayed themselves. There must sometimes be bitter thoughts in the still watches of the night—or does continual political scheming deaden even the conscience?

## CHANGE IN THE TIDE

**IN AN EDITORIAL IN LAST WEEK'S** issue of The Saturday Evening Post we read:

"Already it looks as if the top of the boom has been reached. The cost-of-living index has declined moderately over several months. Steel companies report a less hysterical demand for their products. . . . Employment figures are still high, although in some lines there is less disposition than there was to hire anybody for any kind of job at his own price."

Let this furnish material from which the prophets of gloom might manufacture variations of their old fulminations, the editorial continues:

"There is still an enormous unfilled demand for goods, and the maintenance of our high-level standard of living will consume our productive energies for a long time. Furthermore, unless the Russian peace offensive comes to something more than a propaganda device, our defence program might easily bring back the undesirable boom conditions through which we have been passing."

The basis for the Post's views relative to conditions in the United States does not find an exact parallel in Canada. The cost of living index, for instance, after a minor decline, reached peak figures again at the beginning of the year. But many of the factors noted by the American weekly do apply in Canada and will become more noticeable as the effects of trends in the United States spread across the border in processes which are unavoidable in our closely integrated economies.

For that reason, if for no other, it may be wise for all branches of our productive enterprises to consider the incidental remarks about employment. Honest labor men will admit without argument that scarcity of manpower during the war introduced into many industries and businesses an element whose production did not justify the wages paid. As a hypothetical example, the lad who finally left school in

fifth grade when he became 15, and caught rivets in a shipbuilding plant, should have been impressed with the fact that his capacities would not necessarily keep him in a well paid bracket when the emergency was over.

For the sake of the consumer, no less than for management, it has become necessary to sift out the inefficient and redirect them to occupations for which they are more suited. That, coupled with the gradual emergence of a buyer's market and the loss of warborn trade not conducted on economical lines, calls for higher standards. But the person who has enjoyed high wages under abnormal conditions is seldom inclined to accept the grading down process without complaint. Hence the appearance of a group which is opposed to accepting less remunerative employment when, on the basis of qualification and competence, it has scant ground on which to demand superior positions.

Every capable individual, of course, has the right to expect opportunities for gainful employment. But those with mediocre abilities should not be surprised if they find, as a sequel to the false standards of wartime and immediate postwar employment, "less disposition" on the part of employers "to hire anybody for any kind of job at his own price." Competition is returning to the labor market, and competence is an important factor.

## MOVING AHEAD

**COMING CLOSELY AFTER THE AGREEMENT** on an armistice in Palestine, The Netherlands' announcement that establishment of a federal regime in Indonesia will be carried out at an early date gives encouragement to the hope that another of the world's sore spots may shortly be healed. A round-table conference will be held at The Hague on March 12 to bring Dutch and Republican leaders together for a discussion of plans for an interim government. By July 1, 1950—a date, incidentally, which was set by the Security Council of the United Nations—it is hoped to have an Indonesian government with full sovereignty installed.

The Dutch are thus recognizing the trend of the times—a trend that has been reflected in the new status of India, Pakistan, Burma and other heretofore subordinate countries. Colonization is giving way to co-operation between diplomatic equals. But it is not too much to say that full success of the new arrangements will be achieved sooner if the new national powers realize their responsibilities as well as their freedoms. Co-operation works both ways.

## POLITICAL PUCKS

**MANY REASONS MAY BE ADVANCED** for the victory of the Czech team in the world-hockey series concluded on Feb. 21. Cynical Canadians may suggest one of the most potent was the Sudbury Wolves and how they played in the tournament in Sweden. And the Wolves, it may be said, have indicated their alibi—the type of refereeing with which they had to cope.

On the other hand, few in the free world will be inclined to accept the explanation attributed to a Communist spokesman who expressed the conviction that the Czechs won because of the government system in that country. That nation's representatives, it will be recalled, took the world championship in 1947—before the "Red" coup. And when Communists raise the boast of implied invincibility through the strength of unity in their lands, it will not be forgotten that much of the military successes of the Red Army were attributed by Moscow to the individual initiative of the partisans behind the German lines, whose activities, gallant as they were, scarcely conformed to regimentarian practice.

Somehow or other we are unable to correlate the Czech hockey triumph to teachings of Marx, Engels, Lenin or Stalin. There may, however, be some connection between Communism and the stability of hockey in Czechoslovakia. We are told, in a Reuter's dispatch from Paris, that a post-series game scheduled between French and Czechs in the French capital was canceled because Czech athletes have shown a disconcerting inclination to refuse to return to the Communist-dominated country once they cross its borders. They are held together but not willingly.

## FRYING PAN FRAUD

**BRITISH FISHMONGERS HAVE BEEN** aroused by charges that the lowly herring is being dyed instead of kippered before being offered for sale in the shops, and a considerable controversy has resulted. Although letter writers to The Times of London admit that the fish look well on the counters in their glossy but allegedly artificial finish, they complain that the food "has an unpleasant odor when cooking and a still nastier taste."

We shall not stoop to such clichés as the comment that there seems to be something fishy about the kipper business, or that even a red herring may be suspected today; but it is only fair to point out that man's love of genuine tasty foods is waging a losing battle with his ingenuity in devising new and unusual forms of nourishment. To the synthetically colored herring may be added the synthetically cased sausage, the artificially seeded raspberry jam, and other foods which, like the old grey mare, "ain't what they used to be." The day may come, in the streamlined super-scientific world of the future, when a handful of nourishment pills and a three-dimensional picture of a roast of beef may be all that is needed to set the dinner table. But may that day be long in coming. Somehow, we prefer the old-fashioned, inefficient style.

## Threat From Siberia

By RICHARD HUGHES  
Sunday Chronicle Tokyo Correspondent

**IN ONE PARALYZING BLOW**, the Soviet, from its existing interlocked system of North-East Siberian air bases, could easily seize and occupy the three key U.S. Alaskan air bases in one day.

That is the considered opinion of anxious American Air Force strategists in Tokyo, who have for three years been piecing together reports by Japanese prisoners-of-war repatriated from slave labor in Siberia.

Patiently checked and counter-checked, these fragmentary reports have been assembled and added to the mass of other information, acquired through routine army intelligence, which give a blurred but alarming picture of what is happening behind the Siberian "Iron Curtain."

**FROM SOUTHERN SIBERIA**, through desolate valleys, across frozen steppes, and over glaciers and mountains to the Arctic Ocean, Russia is making Siberia a throbbing arsenal of industrial development and military might.

The grim, gigantic task of building airfields, roads and factories on ground frozen 20 feet deep was begun 12 years ago, but was delayed by the war. Now, however, the task is being pressed to its conclusion with characteristic Russian tenacity, and complete disregard for human suffering.

It appears that there are three main concentrations of military strength in Siberia:

1. From the extreme tip to the Chukotsky Peninsula, which juts into the Bering Strait, across 1,000 miles to the Lena river in Central Siberia.
2. In North Manchuria, an area which includes the atom-proof underground airfield.
3. In North Mongolia, at Lake Baikal, where experts believe Russia is engaged on atomic projects.

**EVEN WITH THESE KNOWN WAR CONCENTRATIONS**, however, it is difficult to estimate the total armed strength of Soviet forces in Siberia. In each of the three regions the main show of Soviet might is in the planes and airborne divisions held there.

In the 1,000-mile Bering Strait to Lena river zone there are believed to be some 800 war planes and three army divisions, two of them airborne. In the atomic experimental region there are some 2,000 planes and ten divisions.

The military strength which worries the Americans most, however, lies in North Manchuria, centred on the atom-proof airfield, where the Russians are reported to have based more than 2,500 planes and 20 divisions, five of them airborne.

**THERE IS CLEARLY AN OVERWHELMING** group of Soviet armies which could be used against General MacArthur's four divisions in Japan and Major-General Twining's mere handful of troops in Alaska.

Meanwhile, Russian technicians, scientists, industrialists, and army and air force leaders show no signs of letting up in their bid to turn Siberia into an Arctic war arsenal.

Scores of gigantic runways, specially constructed to make clearance easy even in the worst weather, dot every few hundred miles of the three zones. Spaced between these airfields are white-painted, camouflaged buildings turning out bombers and jet fighters at the rate of 200 a month.

**IN NORTH SIBERIA** at least four airfields have been built to accommodate the Soviet copy of the Superfortress, the Tupolev TU-70. Also based at these airfields are the new hush-hush Soviet super-bombers, reported to have a range exceeding 6,000 miles.

Submarine and air bases, key industrial, communication and military centres, the giant underground airfield at Iman—everywhere observers agree that, on the evidence available, the Soviet war machine is speeding up.

If there were any doubt of this they would point to the sudden jump of three or four millions in the population of the Siberian wastes—the population needed to maintain the grim arsenal.

**FINALLY COMES** the sombre warning of the Red triumphs in North China and Manchuria. Only too clearly can it be seen that the tremendous task of supplying and feeding machines and men in the whole area has been simplified by the rich resources of Manchuria, now available to the Soviet.

The Red Chinese triumphs have finally succeeded in cutting off the Allied line of Superfortress airfields at Chengtu, north-west of Chungking, at Sian and at Lanchow. These vital air bridgeheads, once available for Allied long-range bombing operations over the Siberian arsenal, are now paralyzed.

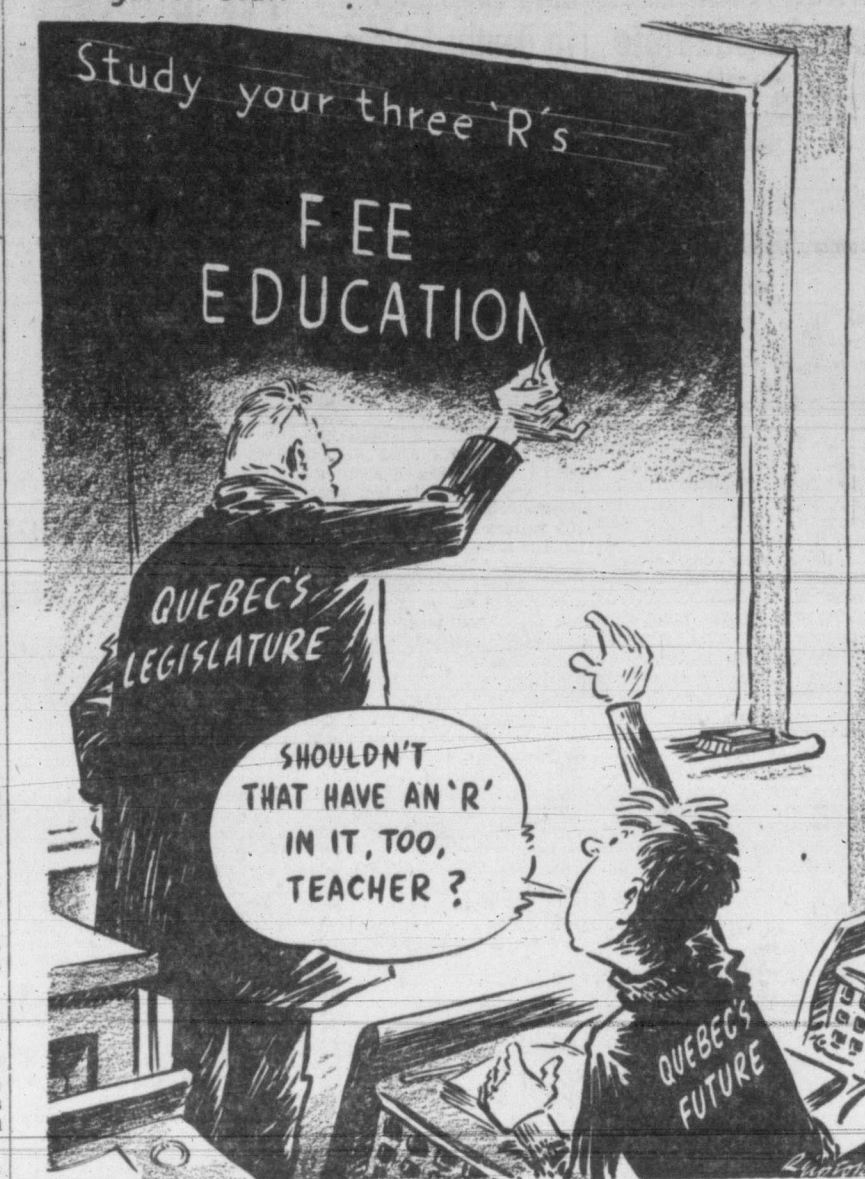

The Soviet military and air experts in Siberia have now no fear of being disturbed.

## Quoting

It takes two sides to make peace. Peace would be ideal and the government (of China) desires it, but we are forced to fight.—Marshal Yen Hsi-shan, governor of Shansi province.

Our escape from a general recession in the spring of 1948 does not mean that no further danger will appear. We have been granted a breathing spell, but we have not been granted lasting prosperity without further effort and vigilance.—President Truman.

## Kindergarten Stuff

## As Our Readers See It

### SPIRITUAL PERPLEXITIES

Referring to Mr. Pepper's recent letter in your columns, it should be noted that Bishop Barnes has been repudiated by many church leaders, including both the English Archbishops, and refuted by many scientists—notably Sir Frederic Kenyon in his recent book "The Bible and Modern Scholarship."

E. W. ABRAHAM.  
1125 Faithful St.

### GLAD TO HELP

I would like to express the thanks of the members of the Guide movement in Great Victoria, and myself personally, for the publicity afforded us this week through the medium of your paper.

The various articles which have brought the activities of the movement during "Thinking Week" before the public, are much appreciated.

To you, and the different members of your staff who have given the utmost co-operation, my thanks.

E. BEVAN (Mrs. R.S.)  
Convener "Guide Thinking Week" Publicity.

### SO IT GOES.

If the arguments for liquor reform which the cabaret owners recently submitted to the government are as refutable as your correspondent E. A. Holt (Feb. 21) suggests, I should like to see him indulge in a little logical refutation rather than in petty vituperation.

Character attacks are generally the refuge of the defeated. Mr. Holt's illusions die hard. The prohibitionists and the vested liquor interests are probably at a loss for a suitable method of attack, precisely because the cabaret owners have presented their case with rather more unselfishness than Mr. Holt would like.

It should be remembered that the cabaret owners suggested a broader liquor distribution as a cure for the grosser ills caused by the present narrow system.

The motives for this suggestion were just as noble as Mr. Holt's motives: (1) The present laws are so hypocritical that each year thousands and thousands of citizens laughingly ignore them. The cabaret owners are unwillingly made parties to this law-breaking. If the "public place" clause were removed from the Liquor Act, it would conform to public habit and public desire. In this country, Mr. Holt, the people make the laws, not the temperance (prohibition) organizations. This is, and always has been, the primary concern.

(2) The cabaret people, in what even Mr. Holt must regard as a courageous campaign, have gone further: they feel that when there are so many problems caused by a bad liquor law, their personal problem is not important enough to crowd out more pressing ones.

### (3) If wider facilities are granted, they might well carry with them monetary return for the license holders. But this is just a matter of public policy—the profit motive, free enterprise, and all its ramifications are with us in B.C. When the people wish to repudiate that policy, they will elect a Socialist government pledged to take the profit out of everything.

Then, if Mr. Holt still considers the "wets" a bunch of cheap, selfish "crooks" as he implies, I personally shall have a very hearty laugh.

HARVEY E. MIDDLETON.  
Proprietor of The Flame Supper Club, Burnaby, B.C.  
1050 Alberni St., Vancouver, B.C.

### FOR MR. PEPPER

The search for Truth, as proposed by Mr. J. L. Pepper in his letter of Feb. 23, seems to have led to its apparent discovery in "The Rise of Christianity," written by the Bishop of Birmingham.

Mr. Pepper would undoubtedly grasp the author's modern interpretation of Scripture if he read "Doctrine in the Church of England," endorsed by the Archbishops of Canterbury and York. In this work the evolutionary hypothesis supplants the Genesis account of the origin of man, and the findings of science replace the revelation of the Bible.

On the basis of reason alone, the theory of evolution can never be proved unless science can explain the first cause, its power of operation, the human mind, and life itself.

As Morris Morris points out in his "New Light on Genesis," descent is undeniable, but it was CREATION during descent, not evolution.

HUBERT ARNOLD.  
2924 Qu'Appelle St.

### IN GRATEFUL MEMORY

After due consideration, the committee in charge of the Women's Work Room feels obliged to terminate the work of that organization. To those customers who have placed orders to be filled, we would urge that all bundles be called for, as the Work Room will close on March 15.

In carrying out this decision the members recall with feelings of affection and deep appreciation the work and example of the late Ray Wigley—whose untiring efforts brought into being

## Traveling Court

Edmonton Journal  
The suggestion made recently by S. H. McCuaig, Edmonton barrister and president of the Canadian Bar Association, that the Supreme Court of Canada ought to go on circuit from province to province rather than remaining always in Ottawa, will no doubt shock the traditionalists. Nevertheless it deserves serious consideration.

this project of self-help. Through it, scores of lonely women, who were willing to work, have known a measure of security and friendship.

The committee wishes to take this opportunity of thanking the local newspapers for their kindly interest at all times, and also the many friends who constantly during the past 19 years, have given their financial support and who in countless ways have manifested an interest in the welfare of the women employed.

No statement to the public would be complete without an expression of gratitude and appreciation to those members of the committee who have given such loyal support in every undertaking.

(Mrs. J. W.) BELLE C. GIBSON.

### TWEET, TWEET

It was a great relief to read in the Times about the Provincial government's intention to spend \$4,000,000 on a new mental home.

There must be a large number of irrational cases around these parts, otherwise this huge expenditure would not be necessary. My suggestion would be to pack it with all the politicians now sitting in the "House."

There are many other cranks and humbugs in and around Victoria who should join them; and when all these irrational folks are caged, we can feel safe to live a normal, happy life.

ROBERT WILSON.  
1647 Doncaster Drive.

### MAN'S INHUMANITY

One learns with great concern of the number of jobless in B.C. According to Mr. Mayhew, the number of unemployed is only a mere trifle. A great many people are beginning to realize if the government did not bring so many displaced persons to Canada the unemployment situation would not be so serious.

Of course, with an election in the offing there will be jobs created. But what provision has been made when those jobs run their course? Granted, a number of the unemployed are married women, but with the high cost of living they have no other choice but to seek work.

No provision has been made for the men and women in their forties who are out of employment. The door of opportunity has been closed in their face. Little consideration is shown for self-supporting women in this group. It shows poor judgment on the part of Selective Service to offer work so strenuous it taxes the strength of a strong young girl, when they are qualified for more suitable work. Or is there a hidden pressure behind over which they have no control? In the end these people become a burden on the community at large and the taxpayer foots the bill. Such is "man's inhumanity to man."

MISS MAY WAUGH.  
2633 Shelbourne St.

## GLOBAL SURVEY

By DeWITT MACKENZIE  
Associated Press News Analyst

**THE** new India continues to pursue her destiny with seven-league strides.

The latest of many striking indications of her determination to modernize her way of life is the introduction in the National Legislature of a bill which would revolutionize the status of Indian women. This measure would make sweeping changes in ancient customs of the Hindu religion. For instance, plural marriage would be abolished, and women would be allowed the privilege of obtaining divorces.

It is interesting to find Law Minister B. R. Ambedkar sponsoring this measure. Dr. Ambedkar was born into that outcast class known as the Untouchables, and has spent his life championing their cause. He has a deep feeling for any class of society which is deprived of its rights.

### HINDU OPPOSITION

As was to be expected, the bill has run into a storm of opposition in Parliament. The chief protest comes from orthodox Hindus and is mainly on religious grounds.

So we shouldn't assume that the bill will pass. However, we may take it as an encouraging sign of the times.

Whether the measure is adopted, the fair sex of India is coming into its own, as is clearly indicated by the fact there are women members of the Indian Legislature and of the Pakistan Legislature. Prime Minister Nehru's sister, Mrs. Vijaya Lakshmi Pandit, is ambassador to Russia and also is India's chief representative at the United Nations.

### MAN'S WORLD

That's a great change from what I found on my first visit to India more than 30 years ago. The spirit of progress was in the air, but it was largely a man's world. Except for the lowest class, women as a whole were kept in purdah. That is, they were secluded from the company of men not members of their own family and were closely veiled in public.

Purdah still exists in India. You even find purdah girls in some of the universities. But it is on its way out, and women are coming into their own.

## CLIPPED AT RANDOM

### DEBATABLE TRUMP CARD

Toronto Star

The trump card of Spanish foreign policy, which seeks a rapprochement with the United States, is the supposed usefulness of Franco as a bulwark against Russian expansion. This is itself debatable, as his army is reported to be in badly run-down condition. But such a consideration, even if well founded, should not blind western statesmen to the true Fascist nature of the Spanish government. The confidence of the world's people can never be obtained by the democracies if they ally themselves with such leaders as Franco.

### STAR-GAZING

Manchester Guardian

"Most ill-considered and inopportune," said the Red Queen crossly. "I don't think they ought to do it at this time of year."

"Do what?" inquired Alice.

"Discover new stars," said the Red Queen. "Somebody's just done it in British Columbia—found a new star that is 60,000 light years away from the earth."

"It's a long way off," said Alice, soothingly. "I shouldn't let it worry you, if I were you."

"But it does worry me," announced the unappeased Red Queen. "I regard it as a calculated affront to the Solar System."

"Whatever for?" inquired Alice.

"Because it says the new star has a volume a thousand times greater than that of the sun. If you were the sun, how'd you like to be told that you were only a thousand-to-one outsider in the cosmic solar stakes? Isn't it enough to give the sun a permanent inferiority complex? Goodness knows, we see little enough of him in any event at this time of the year—could you wonder if he decided to hide himself more bleakly than ever behind snowstorms or break out in bigger and better sunspots?"

"If that's all you've got to worry about," remarked Alice, unfeelingly, "try something a little nearer home than 60,000 light years away. Could I interest you by any chance in a nice line in Saturday afternoon bus strikes?"

By Officials From All Provinces

OTTAWA (CP)—More than 100 building officials from across the country today began a two-day probe of Canada's building regulations, to knock out imped-

ments to the Dominion's building progress.

Municipal representatives from Victoria to Moncton, provincial government officers and federal government officials are attending.

At the meeting sponsored by the National Research Council and the Associate Committee on the National Building Code, they are making a thorough study of the code in its present state before extensive revisions are undertaken.

An official greeting was extended by Dr. C. J. Mackenzie, president of N.R.C. As far back as 1933, says Dr. Mackenzie, a conference on building problems was held by the council. One result was the start of work on the National Building Code published in 1941.

A new division on building research was established by the council 18 months ago. One of its responsibilities is to co-ordinate work on the code and similar guides to building practice.

R. F. Legget, director of the new division, is presiding over the meeting. T. A. McElhanney, superintendent of the federal government's forest products laboratories in Ottawa and a member of committees working on the code, also is present.

## JOINT EFFORTS

He explained the origin of the code, which came into being in connection with the original National Housing Act. It was a joint product of the finance department and N.R.C.

Its use in conjunction with veterans' housing will be explained by Maj. Gen. Hugh A. Young, president of the government's Central Mortgage and Housing Corporation. Gen. Young believes the code must be continually revised to keep it abreast of current building practice.

Both Toronto and Montreal are aiding in the two-day meeting.

Cobione Supplied  
For Hospital Use

MONTREAL (CP)—Cobione, the new vitamin isolated last spring and used to treat pernicious anemia, now is available to Canadian hospitals.

The vitamin (B12), whose anti-pernicious-anemia activity is more than 1,000,000 times

greater than that of whole liver, is being marketed in ampules for administration by physicians.

Cobione was isolated from a mold, a strain of streptomyces griseus, the same species as that which produces streptomycin, used in treatment of various types of tuberculosis.

Use of cobione will permit physicians to administer exact doses of the pure vitamin and to give potent doses with virtually no physical discomfort.

Veteran Mounties  
Seek Pension Boost

CALGARY (CP)—Veterans of the Royal North West Mounted Police voted Saturday to ask the federal government for increased pensions and for the same hospital and medical treatment rights now accorded former members of the armed forces.

Delegates attending the one-day

annual meeting of R.N.W.M.P. Veterans' Association said a copy of the submission containing the requests would be placed in the hands of every member of both the Senate and the House of Commons.

A. Clark Bury of Calgary was elected president of the organization, succeeding Julien Nash of Calgary. J. O. Fripps of Vancouver was re-elected vice-president and G. E. Blake of Calgary was returned to office as secretary-treasurer.

## Conservatives Voice Criticism Of Churchill's Leadership

LONDON (CP) — Winston Churchill, Anthony Eden and Lord Woolton now face the problem of satisfying a discontented party.

The leader, deputy leader and chairman of the Conservative Party have been meeting recurring polite criticism from groups of Conservatives ever since 1945 when the Labor government gained power by an overwhelming majority.

But last week's by-election in Hammersmith South, which dashed hopes of capturing a seat from Labor, has pricked Conservative pride. Even the massive prestige of Churchill and his chief lieutenants cannot now save them from blunt speaking at party gatherings.

(The Associated Press said some of Britain's Conservative leaders are talking privately about easing Churchill out of his role as the party's prime policy maker. It reported a rising demand for a drastic shake-up in Conservative campaign strategy before the next general election.)

The Daily Telegraph, long a faithful friend of the Conservative Party, told the party high command in an article by its political correspondent:

"There is serious unrest among Conservative members of Parliament over the party's failure to win the Hammersmith South by-

election. It will come to a head when the Conservative members of Parliament meet Thursday.

"M.P.s who took part in the campaign are saying bluntly that the election could have been won but that it was lost in the House of Commons. The party machine in the constituency worked well and the candidate was good. But the use made by Socialists of Conservative tactics over supplementary estimates turned the scale."

This referred to the debate on appropriation of an additional £53,000,000 (\$212,000,000) above the originally-estimated amount for the National Health Service. The opposition criticized what it called reckless expenditure but the Telegraph said, Labor spokesmen were able to make it appear that the Conservatives attacked the actual principle of free medical service.

### NO VOTE TEST

The Conservative threat to move a vote of censure was not carried through and Labor members triumphantly cheered Health Minister Aneurin Bevan's replies to Conservative criticism.

The Telegraph said there was no suggestion of party critics attacking Churchill as leader of the party, but it was felt he should have the assistance of a "chief-of-staff" who could give undivided attention to political tactics, such as the arrangement of debates, selection of speakers and the line to be followed on matters of detail.

This task is performed ably for Labor by Herbert Morrison, deputy Prime Minister, as leader in the House of Commons.

### One Hit: One Escapes

NEW WESTMINSTER (CP) — Two armed bandits entered a Chinese laundry here Saturday night and relieved Chan May Jim of \$10 after hitting him on the head with a revolver butt.

Then they went upstairs to rob laundry worker Chan Foot-chong. He jumped out the window.

The bandits fled, dropping the \$10. The Chinese were treated at a hospital for minor injuries.

## Bishop Barnes Raps Measure Now Before Church Assembly

BIRMINGHAM (Reuter) — The Anglican Bishop of Birmingham, Rt. Rev. E. W. Barnes, in an address Sunday in the cathedral here declared that a movement is afoot to get rid of bishops subscribing to "liberal" doctrine.

Dr. Barnes, who recently caused a furore in the church with a book contesting the authenticity of miracles, singled out for attack a proposal before the Church Assembly known as the "Bishops' (Retirement) Measure."

If the measure passed, Bishop Barnes declared, "a small cabal of bishops" could bring before a tribunal and retire a liberal colleague of whose views they disapproved.

"All this could happen to a man for expressing disbelief in Jonah's whale and Noah's ark," Bishop Barnes said.

"The reactionaries — if I may use the term without offence, they are well-meaning but misguided — naturally desire that there shall be no liberal bishops. They wish to secure that no liberal bishops shall be appointed or that, if any chance one should be appointed, he should be capable of removal."

"Such power can not be obtained without a change in the law, but if the Church Assembly sent forward to Parliament a measure to liquidate liberal bishops it would be unhesitatingly thrown out. So it is proposed to send forward a measure bearing the innocent title, 'Bishops' (Retirement) Measure,' which has been on the stocks for some years."

The measure sets the retiring age for bishops at 70. Hitherto the church has had no power to dismiss bishops and the King's approval must be obtained before any bishop can be retired.

### NORWEGIAN FLEET GROWS

Norway added 114 new ships, totalling 675,173 tons, to her merchant fleet in 1948. This figure includes one floating whaling factory, 15 whale boats and one salvage ship.

## Nanaimo Pioneer Dies At 87 Years

NANAIMO — James E. McKenzie, a pioneer and the first secretary of the Nanaimo Liberal Association, died here Friday at the age of 87.

Mr. McKenzie was well known as a candy manufacturer. He came to Nanaimo in 1884. He also went over the Trail of '98 into the Yukon and was there until 1901.

Born in England, he was employed as a journalist in London and Cardiff, Wales, and worked on the Free Press here in early days. He also wrote for San Francisco and Seattle papers.

He is survived by his widow, Henrietta, and four sons, Edmond, Victoria; Victor and Walter Jr., Vancouver; and Ernest E., Nanaimo.

### Kootenay Death

NELSON (CP) — Jacob Pius Fink, 76, old-time Kootenay merchant whose associations with southeastern British Columbia dated back to 1833, died Sunday. He was first in Alnsworth, and in 1896 moved to Cranbrook, where he established the Fink Mercantile Co., which now has stores in Cranbrook, Nelson and Kimberley. He was one of the first Cranbrook aldermen, mayor later, and organized its first fire brigade.

## University Of Toronto To Hold Management Conference In June

By FORBES RHUDE  
Canadian Press Business Editor  
Canadian business will be put under the microscope when executives get together May 30-June 25 for a study session.

It will be called a "management conference" and will be sponsored by the University of Toronto through its graduate course in business administration, with the co-operation of other Canadian and U.S. universities.

The group will be limited to 50, consisting of persons who have reached the top in their special departments and be regarded as future general managers or executive officers, or who have recently been assigned to general managerial duties.

"Executives of ability" is the eligibility test—there are no requirements as to formal education.

The brochure announcing the conference says:

"Emphasis will be placed on discussion of current problems and trends in management and will involve consideration of and reference to business practices and policies at the general level."

Another point:

"A number of business leaders achieve senior status without any extensive experience outside their own organization and in some cases without any extensive first-hand knowledge of the manner in which others conduct their business affairs."

## TO VISIT PLANTS

"Well-organized plant visits may be particularly important to men of this kind. They are certainly of great value and interest to executives of wider experience."

The course will be held at

Hart House, Toronto, and lecture discussions for the most part will be under the leadership of members of Canadian or U.S. university faculties.

## Proposes Toronto Annex Several Areas

TORONTO (CP)—Controller David Balfour said today he would urge compulsory annexation of three municipalities and parts of two others bordering

on Toronto in order to make room for the city's growth.

He said he favors friendly amalgamation but added that if that does not work he will urge the City Council to petition the

Provincial government for legislation compelling annexation.

He said the municipalities which should be annexed are

Mimico and New Toronto on the west, together with parts of Scarborough and North York Township in the east and northeast.

Three kittens were born at the Australian Museum at Sydney with fewer than the normal four claws on each paw. One has three, one two, and another only one.

## Appeal Made For Funds To Operate Victoria Orphanage

Contributions are needed to help cover current operating expenses of the B.C. Protestant Orphans' Home.

Board officials have made an appeal for assistance following the announcement of a deficit of \$8,933 in operating costs for 1948. Walter E. Stanley, honorary president, and Reginald Hayward, honorary past president of the board of managers, explained in a letter that the deficit was caused mainly by increased costs of commodities.

The home is supported by voluntary contributions plus some maintenance fees and gifts. A board of directors of Victoria businessmen serving on a voluntary basis has been operating the orphanage for the past 75 years.

Two doctors, a dentist, a solicitor and an auditor donate their services.

Board officials said the orphanage was being run more as a home than an institution.

Donations can be made in favor of the British Columbia Protestant Orphans' Home, 2691 Cook Street.

## Need Primary Reader For Indian Schools

There is an urgent need for an illustrated primary reader for Indian children, Mrs. Isobel Maxwell, teacher at the Nanaimo, Indian Hospital, said here.

She told a meeting of the British Columbia Indian Arts and Welfare Society Indian children are slow to learn from textbooks used by white children. "What they need is a special book illustrated with drawings to portray meanings of words and sentences."

Mrs. Maxwell, a former newspaperwoman and childhood friend of the late Pauline Johnson, said the acute teacher shortage made it impossible to teach Indians over 18 years of age.

## After-Five Parties To Honor Legislative Members, Wives

Hon Herbert Anscomb, Minister of Finance, and Mrs. Anscomb, will entertain with two cocktail parties at their Newport Avenue home, to honor cabinet

ministers and private members of the Legislature and their wives. The first party will be held Tuesday, March 8, and the second on Wednesday, March 16.

## National President, Authors' Association Feted In City

Executive members of the Canadian Authors' Association, Victoria and Island Branch, entertained at dinner at the Mayfair Cafe last Thursday when honor guests were Mr. Will R. Bird, national president, and Mrs. Bird.

Other guests were Miss Audrey Alexandra-Brown and Mrs. Clara Hill Maunsell, honorary president and president of the local branch; Mrs. Robin Breach, first vice-president; Mr. H. W. Maunsell, secretary; Mr. J. Williamson, treasurer; Mrs. Mary Wright, Miss Eugenia Perry, Mrs. Fred Davies, M. James Morton, and Mrs. Sheila McIvor.

A meeting at Doris Bagshaw's Studio followed the

dinner party, and later a reception for branch members was held at the home of Mrs. Jean Mutter, 1009 Terrace Avenue, where the rooms were bright with spring blossoms. Mrs. Maunsell, Miss Perry and Mrs. Vivian Davies assisted Mrs. Mutter in serving late-evening refreshments.

Friday Mr. and Mrs. Bird were driven by Mrs. Mutter to visit Mrs. Nellie McClung, outstanding Canadian author, at her Gordon Head home, where they were entertained at luncheon.

Mr. and Mrs. Bird left later on Friday for the mainland en route to Banff.

Mr. Bird is an outstanding writer in both novel and short story fields.

## P.E.O. Chapter Entertains 'B.I.L.'s' At Dinner Party

Members of Chapter K of the P.E.O. Sisterhood entertained their husbands at a dinner party recently at the Victoria Golf Club. Mrs. Lily Wilson, president of the chapter, conducted the program. The toast to the "B.I.L.'s," the nickname for the husbands, was proposed by Mrs. Etta English and responded to by Gerald Murphy. The toast to P.E.O. was proposed by Archie

H. Wills and responded to by Mrs. Irene Butters. Installation of new "B.I.L.'s" including Col. Frank Fairley, Patrick Lamont, John Newton, Dr. R. Clark, Hon. Leslie Eyres and Dr. William Allen, was conducted in a humorous manner. Presiding at the installation was W. H. Wilson, who was assisted by Dr. George Fletcher, Clare N. Chubb, Gerald Murphy, Fred M. McGregor and Harry B. Dawson.

Miss Mary Alexander, only daughter of Mr. and Mrs. J. M. L. Alexander, 1249 Rockland Avenue, left Victoria Saturday, en route to Los Angeles, where she will make her home. En route, Miss Alexander will visit in Seattle, Tacoma and San Mateo, where she will be the guest of an aunt, Mrs. J. E. Davis, for about a week. In Los Angeles she will join Miss Josephine Mark, who left Victoria for the southern city, late last year.

## Charming Visitor In Victoria On Honeymoon

Mrs. Norman Thomson with her husband, a member of the Mati and Hari troupe appearing in Victoria tonight, have been week-end guests of Mr. and Mrs. Marcel Godfrey, 1532 Prospect Place. They have been married just five months.

The story of the meeting between Mrs. Norman Thomson and her husband, principal dancer with the Mati and Hari troupe which is the attraction at the Royal Theatre tonight, is the "once upon a time" type of story everyone likes to hear.

It starts in Powell River, where Norman Thomson was born 29 years ago; touches briefly on the fact that he took dancing lessons in that British Columbia town from Mrs. Norman Shaw and later went, as a stage-struck youngster, to San

Francisco, where he was auditioned and accepted by the San Francisco Opera Ballet; continues through the war years when both Mr. and Mrs. Thomson were doing their parts in the war effort, to the summer of 1947 when Norman was again dancing, this time at a summer resort in the Adirondacks, where a dark-eyed singer named Martha was also under contract.

Martha was vocalist at the Roxy Theatre, New York, and the two young people found they had much in common.

From there on the story is a love story, of course, ending with "and they lived happily ever after," for they were married just five months ago, and are on an extended honeymoon at present with the Mati and Hari troupe.

Following tonight's performance, Mr. and Mrs. Thomson will leave for a short holiday with Mr. Thomson's parents, Mr. and Mrs. L. C. Thomson, at Powell River, before rejoining the troupe again for engagements in Vancouver, Washington, D.C., and New York.

## Bishop Cridge Chapter Holds 31st Annual

Regent of Bishop Cridge Ministering Chapter, I.O.D.E., since its organization in 1917, Mrs. T. H. Laundry was re-elected to that office at the chapter's annual meeting held at the home of Mrs. H. S. Beckton recently.

Mrs. Douglas Bullen, first vice-regent, welcomed Mrs. J. L. Ford, municipal regent and Mrs. F. E. Dowdall, municipal organizing secretary.

Tribute was paid to the memory of the late honorary regent, Mrs. Cran, and honorary vice-regent, Mrs. J. O. Wilson.

Mrs. Laundry thanked the members for the co-operation and help, and urged that newcomers to Canada be given welcome, and the poor and sick be remembered.

Mrs. H. Southin's secretary's report, was given by Mrs. H. Cullis; and treasurer Mrs. Beckton stated that all obligations had been met and help given to various causes.

Empire study convener, Miss E. M. Pemberton, reported that articles on different countries had been read at each meeting. Other reports were given by Mrs. Frank Crofton, Echoes; Miss H. Taylor, child welfare; Mrs. Scott Ritchie, knitting; Mrs. Cullis, postwar.

New officers elected were Mrs. Bullen, first vice-regent; Mrs. Francis George, second vice-regent; Mrs. Southin, secretary; Mrs. Beckton, treasurer; Mrs. D. B. F. Bullen, educational secretary; Mrs. Frank Crofton, Echoes; Mrs. J. C. MacDonald, standard bearer, Conveners are Miss Taylor, child welfare; Mrs. Ritchie, knitting; Mrs. Cullis, postwar; Miss Pemberton, Empire Study and Mrs. Southin, ex-service personnel.

Following the meeting tea was served by the hostess assisted by Miss Mary Beckton.

## Club Donates \$25 To Aid University

Victoria Home Economics Association, at its February meeting, voted \$25 to Department of Home Economics at University of British Columbia to be used to cover personal losses suffered by students and faculty in the recent fire. It was announced by program convener, Mrs. R. Martin, that the annual cooking school will be held in May. Program for the evening included talk on color dynamics given by Miss Ruth Hamilton of Toronto. A colored film, "We Decorate our Home," was also shown. Miss Yvonne Love, president, was in the chair, and welcomed several new members, including Mrs. Nora Graham and Mrs. Betty Skeets.

## Farewell To Member

Members of the afternoon branch, St. Saviour's Woman's Auxiliary, met at the home of the president, Mrs. B. Jacklin, 811 Russell Street, to say farewell to one of their group, Mrs. B. Temple, who is leaving the city to make her home in Vancouver. Rev. G. D. Kendall spoke of Mrs. Temple's many years of service in the auxiliary and the parish, and on behalf of members, Mrs. Jacklin presented Mrs. Temple with a gift as a token of their appreciation and friendship.

Afternoon tea was served by Mrs. Jacklin, assisted by Mrs. F. J. Webster, Mrs. Cody Johnson and Mrs. S. Smith.

## Club Calendar

Spring tea, auspices Ladies' Auxiliary, Victoria Unit, No. 12, Army, Navy and Air Force Veterans in Canada, Wednesday, auditorium, 1001 Wharf Street. Officially opened at 2:30; feature, pageant of fashion, showing authentic costumes, jewelry and hair stylings of last five centuries . . . XI Chapter, Beta Sigma Phi, puppet show, "Pageant of Fashion," Wednesday at 8 p.m., auditorium, Britannia Branch, Canadian Legion, Blanshard Street. . . ## P.T.A. News

Cordova Bay—A miniature umbrella passed among members of Cordova Bay P.T.A. at their February meeting realized \$7.35 for the Shower of Dimes. C. Howarth presented a resume of the first meeting of district 63 joint P.T.A. committee which has been formed to investigate the necessary additions to elementary schools, and Mt. Newton High School. President R. Sinkinson and Rev. Day were named delegates to the committee. It was announced that the P.T.A. would sponsor a Spring Tea early in May. Proceeds from the affair will be used to purchase a film projector for the school. Mrs. C. Howarth, scout representative, reported Cordova Boy Scout group committee would have a fish pond in the scout fair to take place Friday and Saturday at the Armories. Speaker for the evening was A. Rudge, probation officer of Victoria. Ivan Green was soloist, accompanied by Mrs. Paul Green at the piano.

James Bay—General meeting of the James Bay P.T.A. will be held in the auditorium of South Park School on Tuesday at 8 p.m. Dr. Henrietta Anderson will speak her topic, "Your Child and His Recreation." Refreshments will be served.

The woman with a short neck should always remember to wear narrow lapels, small collars or collarless coats and jackets and flat hats, never bulky ones.

## Y.W.C.A. Activities

Tonight, Senior Business Girls' Club will meet in the small club room at 8 p.m. Plans for the evening include the hand-writing expert, Mr. Hammett.

Tuesday, Sub-Debs will meet in the small club room 7:30 for a regular business meeting.

Wednesday, Overseas Wives will meet in the large club room at 8 p.m. The members have planned on having a voice recorder at this meeting so members can record messages to be sent to the folks back home.

Thursday, Chateleine Club will start their club program for March with a card party to be held in the large club room at 8 p.m. Refreshments will be served.

The newly organized Glee Club meets on Tuesday evenings at 6:30 in the recreation room. This club, organized by residence girls is open to young girls who would like to join a choir and enjoy singing with girls of their own age and interests. The choir is directed by Mrs. Roberto Wood.

On March 18 a recital of seasonal songs will be given by Mr. and Mrs. Roberto Wood in the recreation room of the "Y".

On Saturday the Chateleine Club is holding a tea and sale in the large club room of the Y.W.C.A.

A special meeting of the ways and means committee for the national convention will be held in the small club room at 8:30 p.m. on Wednesday.

Pot Luck Luncheon, sponsored by Ladies' Aid, Gorge Presbyterian Church, corner Tillium and Walter Avenue, Wednesday, from 12:30 to 1:30. Pageant of Fashions to follow at 2 p.m. . . Britannia Lodge, No. 216, L.O.B.A., Orange Hall, 725 Courtney Street, Tuesday at 7:30 p.m. Social to follow meeting.

**NEW! FOR ACID INDIGESTION**  
Here is something new and different to help relieve pain and discomfort of acid indigestion.  
Digestif Rennies are pleasant-tasting tablets which you eat like candy. Their soothing ingredients dissolve in your mouth and quickly start their job of helping to neutralize excess acid: soothe the stomach; and reduce gas.  
Each Rennie tablet is individually wrapped and untouched by hand. You carry Rennies in your pocket or handbag ready to take any time and anywhere. If Rennies don't relieve your indigestion, it's high time you saw your doctor. All druggists have Rennies at 25c and 75c.  
**RENNIES**  
Easy to take—Anytime, Anywhere!

## Girl Guide Notes

**Brownies Meet**—For Thinking Day celebrations, brownies of the First Victoria pack met with Cathedral pack in the Y.W.C.A. On arrival brownies were led through the magic tunnel to their "sixer" corners. After dancing round in fairy riding, the

packs entertained one another. Cathedral pack acted an amusing version of "Three Blind Mice" and the First Victoria did a Thinking Day ceremony "Round the World in Brownie Land," ending with a greeting to the chief guide. After tea, games were played, and the party ended with prayer and taps. Mrs. E. Webster, Brown Owl, Cathedral pack, assisted by Tawney Brenda Morley, conducted games, and Mrs. Dorothy Abraham, assisted by Joan Orten, was in charge of arrangements and storytelling. Each brownie brought a gift of food which is to be sent to children in Europe.

## Celebrate Birthday Of Chief Guide In Guide-Scout Week

Members of five packs of Victoria Centre Brownies gathered at St. Barnabas Church Hall last week to celebrate the birthday of Lady Baden Powell, Chief Guide, and also to participate in Guide-Scout Week celebrations. Pictured above behind the Brownies are Guiders Currier, Rawlings, Heal, Stark, Bond and Bodington, who were in charge of the afternoon's activities.

## Y.P. Societies

**St. Mary's**—A progressive supper was held last Wednesday by members of St. Mary's Senior Anglican Young Peoples' Association. Various courses were served at the homes of John More, Anne Fyfe, Alan Harmston and Doreen Knott. It was announced that the Victoria Local Council pre-leten rally would be held in Niagara Street Hall, Tuesday evening. This week members will attend the mid-week Lenten service in the

church at 8, and later will meet in the hall.

**Christ Church**—A talk on Indian mission work, in and around Alert Bay Mission School and district, was given by Rev. S. J. Wickens, to members of Christ Church Cathedral A.Y.P.A. last Wednesday evening. A presentation was made to Rev. Wickens by T. A. Hutton, the president, who conveyed appreciation of members for the splendid support and co-operation in all young people endeavors. Gordon McMillan conveyed refreshments. Members meet shortly after 6 p.m. every Wednesday to prepare for the spring presentation.

## Hobble-Slim Skirts, Capes, Embroidery New For Spring

**NEW YORK (CP)**—Slim, almost hobble-like skirts, capes, devoid of any pretension toward built-up shoulders, more attention to fine detail such as stitching, exquisite French embroidery and hand-crocheting were the highlights of a custom-made collection of Jay Thorpe originals for spring and summer shown recently to the press.

A four-piece imported tweed ensemble, consisting of jersey blouse, panel scarf, slim skirt and long loose coat was a perfect costume for boat, plane, train or every-day wear.

A Paris-decree two-piece suit-dress with box jacket in natural shantung was belted in the same navy wool as the straight skirt.

An interesting innovation was the curved belt, girdle-like in the back and tapering to a slims in the front, feathered in many suits and dresses.

Among the appealing hand-knit personalities was a two-piece costume in a new shade of hyacinth with a narrow pleated-effect skirt and classic jacket with collar in hand-crochet.

Leg o'mutton sleeves seem to be on the uptrend again. They were especially prominent in afternoon and cocktail dresses of black and navy, cut along simple lines, depending on strands and ropes of pearls for versatility.

The shorter-skirt dress—about 14 inches from the floor—was introduced in gay versions, as in a Dresden rose floral print taffeta with a simple shirtwaist top, full skirt and wide belt or in the more glamorous hyacinth taffeta model with full bare décolletage, supported by straps and winged panel front paniers on a straighter, shorter skirt.

## Corset Industry Grows In Canada

**OTTAWA (CP)**—Keeping Canadian women in shape is improving the shape of Canada's corset industry, it was indicated today.

The Bureau of Statistics, which is chiefly concerned with industrial figures, came up with a straight-faced report to show that the corset industry increased the value of its output in 1947 to \$14,122,000 from \$12,116,000 in 1946.

Because 1947 figures are the latest available it was impossible to gauge the effect of recent fashions on the industry. But the well-rounded document offered a peek into some other aspects of girdle and brassiere-making which employs more than 3,300.

All of the industry's 40 plants are located in Ontario and Quebec. Female workers are apparently preferred because only 10 per cent of the working force were men.

Wages earned in the 22 Ontario and 18 Quebec plants rose by nearly 25 per cent to \$4,093,000.

Materials used cost \$6,276,000 in 1947, an increase of nearly 23 per cent.

An interesting sidelight on the industry's efforts to keep curves in place was a list of imports. The bureau used some more masculine terms when it reported on the amount of steel wire strips of ".064 thickness or thinner, with tolerance not to exceed .002 inches" that went into the production.

It also listed such things as clock springs, phonograph motor springs and ball bearings but it didn't say how they are used.

## Personal Notes

Mrs. C. Orpen of Salmon Arm, B.C., has arrived in the city to be the guest of Mrs. Curtis Sampson, Newport Avenue.

Mrs. T. P. Turner of Shanghai, who has been spending some time in the United States, has arrived in Victoria to visit her son, John Turner, a student at University School, and at present is the guest of Lady Butler at her home on Torquay Drive. Mrs. Turner will spend several months in Victoria and will visit again in the United States before returning to Shanghai.

A cocktail party was held at the home of Mr. and Mrs. W. J. Davey, 1050 Monterey Avenue, prior to the dinner dance at the Empress Hotel Grill Saturday evening, on the occasion of the birthdays of Miss Lorna Davey, Mr. Arthur Lees and Mr. Herbert Marrion. Members of the party were Virginia Stretton, Shirley Mather, Doris Collings, Joan Gower, Joyce Davey, Lorna Davey and Jack Gillatt, Len Cannon, Norman Moss, Arthur Lees, Herbert Marrion and Ron Aldred.

Former Estonian nationals, now living in Victoria, gathered last Thursday evening at the Swiss Hotel, to commemorate the 31st birthday of the independence of their country, which occurred on Feb. 24, 1918. In the group were Mr. and Mrs. Kask who have been living in Victoria for some years; Mr. and Mrs. Kangro and their 16-year-old son, who came recently from Brazil to live in Victoria; also Natalie, Sally and Elfriede, new Canadians who arrived in the city from Europe, last December. Dinner served included a number of Estonian dishes. A toast to their former country, again occupied by the Russians in 1940, concluded the evening.

## HOUSEHOLD HINTS

Whether your washing machine has a wringer or extractor, these suggestions for its use should be helpful: Wring clothes out of the washing suds loosely to prevent the settling of loosened dirt. Wring out of the hot rinse tightly, to extract all the

suds. Wring out of the last cool rinse loosely, especially if you plan to hang the wash outdoors, to leave the amount of moisture required for sun-bleaching.

**TRICK OF THE CHEF**  
For special interesting flavor for oxtail casserole, add ½ teaspoon oregano or thyme.

*The most Beautiful* **BUY** *of all*

We cordially invite you to see the new Chevrolet—the first completely new car the leader has built in more than seven years—and *the most beautiful buy of all!*

You'll find it's the most beautiful buy for styling, for driving and riding ease, for performance and safety, and for sturdy endurance born of quality construction throughout... because it alone brings you all these advantages of highest-priced cars at the *lowest prices* and with the low cost of operation and upkeep for which Chevrolet products have always been famous.

Yes, here's the *newest* of all new cars—pre-tested and pre-proved on the great General Motors Proving Ground—and pre-destined to win even wider preference for Chevrolet as *the most beautiful buy of all*, from every point of view and on every point of value. Come in and see it—*today!*

*First for Quality  
at Lowest Cost*

## WILSON MOTORS LIMITED

VICTORIA — OAK BAY  
DUNCAN

## CHEVROLET

is the only car bringing  
you all these fine-car  
advantages at lowest cost!

### YOU'LL PREFER ITS "LUXURY LOOK!"

Chevrolet's new Leader-Line Styling is lower, wider, racier... with new Dyna-Cool radiator grille, Single-Sweep front and rear fender treatment, and fleet-as-a-rocket lines all around... by far the most beautiful development of the new "functional form" for motor cars.

### MORE BEAUTIFUL FROM EVERY ANGLE!

The new Beauty-Leader Bodies by Fisher (with push-button door openers outside) are true masterpieces by the master builder of fine coachcraft... with superb lines, extra-fine upholstery and a wide variety of alluring colors... much more beautiful from every angle—inside and outside—front, side and rear.

### MORE ROOM AT EVERY POINT!

The new Super-Size Interiors featuring extra-wide "Five-Foot Seats," give you plenty of head, leg and elbow-room as well as extraordinary seating space for six full-grown passengers, and you'll notice that the giant rear decks have what amounts to "trunk-room" capacity.

### SEE ALL! ENJOY ALL!

New Panoramic Visibility, with wider curved windshield, thinner windshield pillars, and 30% more window area all-round, permits you to see all and enjoy all, and to travel in maximum safety.

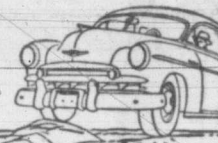

### THESE ARE CARS THAT "BREATHE!"

Yes, you'll enjoy the additional pleasure of riding in a "car that breathes," for a completely effective heating\* and ventilating system supplies warm air to every nook and corner of the interior—exhales stale air—and keeps glass clear in all weather. \*Heater and defroster units optional at extra cost.

### THE NEW RIDE'S A REVELATION!

A vastly improved Unitized Kneec-Action Ride, combined with new direct-acting airplane type shock absorbers, front and rear, and extra low pressure tires, gives the stability, smoothness and road-safety you have always wanted.

### THERE'S ONLY ONE WORLD'S CHAMPION ENGINE!

You get the finer results of Chevrolet's sturdy Valve-in-Head Thrift-Master engine in all Chevrolet models... together with all of Chevrolet's money-saving economy of operation and upkeep... and this is the world's champion engine for miles served, owners satisfied, and years tested and proved.

### JUST COUNT THE COMFORTS!

Push-Button Starter for simplest, easiest starting; Hand-E-Gearshift with Synchro-Mesh Transmission for maximum shifting ease; and Firm Foundation Box-Girder Frame for ride stability and road-steadiness unsurpassed in the Chevrolet price range.

### STOP MORE SWIFTLY AND SAFELY!

The new Certi-Safe Hydraulic Brakes give even faster stops with safety... and assure the highest degree of effective braking action for you and your family.

### YOU'LL SAVE MORE MONEY, TOO!

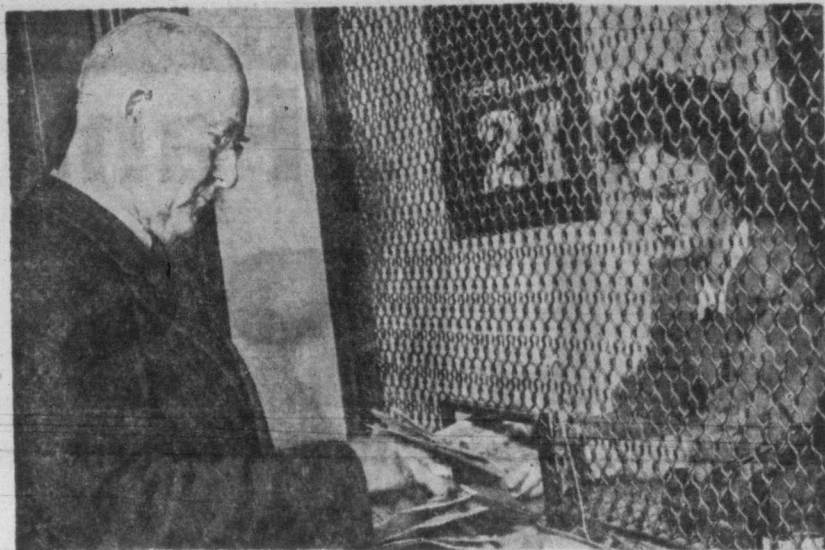

This new Chevrolet is designed, engineered and built to speed your pulse and spare your pocketbook, for it brings you all these and many other important improvements at the lowest prices and with extraordinary economy of operation and upkeep.

### Plus NEW CENTRE-POINT DESIGN!

A remarkable 4-way engineering advance exclusive to Chevrolet in its field, and consisting of Centre-Point Steering—Centre-Point Seating—Lower Centre of Gravity and Centre-Point Rear Suspension gives the new Chevrolet riding and driving results without precedent or parallel in low-cost motoring. That means a new kind of ride and a new kind of driving ease, heretofore reserved for owners of more expensive cars. Remember—only new Centre-Point Design can give you all these finer motoring results; and only the new Chevrolet brings you Centre-Point Design at lowest cost!

### PORTUGUESE LET BULLS LEAVE RING AFTER SHORT FIGHT

During a visit to Portugal you might see bullfights of strange kinds. In Spain and Mexico the bulls are killed by the men who fight them. In Portugal, on the other hand, it is the custom to let a bull escape death.

Before the eyes of a large crowd, a bull is let into a ring. It might be shy in front of thousands of people, but darts are used to make it angry. With several darts in its neck, put there by the so-called "bandeireros," the beast rushes at its enemies.

The men dodge the charge, but one of them may find the bull running after him, no matter where he turns. In that case he runs to a low wall or fence, and leaps over it. This saves him, as a rule, but at times the bull has been known to jump over the wall. This excites the crowd, but if the man is a few feet ahead,

he can escape harm. Certain bullfighters are mounted, and if these manage their steeds properly they can get away from danger anywhere in the ring.

After a bull has been fighting for about 10 minutes, the darts are taken from its neck, and it is let alone. Helpers drive a herd of cows into the ring, and the bull joins them and leaves in peace.

We sometimes hear about taking the bull by the horns. That is an old saying, and the usual meaning is that a person goes after a problem and settles it. In Portugal there are men who really do take bulls by the horns.

Several men, on foot, face an angry bull. One steps forward and seizes both horns in his hands, then clings for dear life. A few moments later his comrades rush to his aid, and grasp the bull so firmly that it is without power to do harm.

Crowns often appear in the bull rings of Portugal, usually between scheduled bullfights. One clown may be seated on a make-believe animal, a stuffed donkey. A bull is made angry enough to charge, but another clown rushes in front of it, and tries to draw it away from the attack.

When clowns take part in a mock bullfight, the horns of the bull usually are padded. Even so, they may suffer bruises unless they are both careful and quick.

## Man-tested recipes

J. G. Bagshaw, New Liskeard, was found in praise of the recipe below. He wrote:

"The addition of Heinz Cream of Tomato Soup makes round steak taste like the juiciest tenderloin. It's the best steak recipe I've ever tried."

Heinz wanted to know what recipes appeal to men. Several housewives were asked to serve dishes out of the booklet "57 Ways to Use Heinz Soups." A typical verdict is given above.

### Savoury Swiss Steak

Combine 1/2 cup flour, 2 teaspoons salt and a dash of pepper and rub with a saucer into 2 lbs. round steak. Brown on both sides in 2 tablespoons fat. Circle and top the steak with slices of medium onion, and 1/2 cup chopped green pepper. Add 1 10-oz. tin Heinz Condensed Cream of Tomato Soup, diluted with an equal quantity of water. Simmer slowly, covered, on top of stove for two hours. Serves 6.

For the 100 best recipes using Heinz Soup as an ingredient, which have pleased the man of the house, Heinz will send winners a generous assortment of Heinz Condensed Soups. Mail "Please-Your-Man" recipes to H. J. Heinz Co. of Canada Ltd., 420 Dupont Street, Toronto 4.

## The DOCTOR Says:

### VICTIMS OF PALSY MAY LEAD ACTIVE LIFE, AVOIDING FATIGUE

By EDWIN P. JORDAN, M.P.

A chronic condition of the nervous system is called shaking palsy, paralysis agitans, or Parkinson's disease. This disorder causes muscular shaking of the hands and arms, and a sort of stiffness of muscular movement.

Severe anxiety or mental or physical shock sometimes seems to bring on the symptoms. It begins gradually, usually in one hand and at first the shaking may not be present all of the time. Together with the tremors there is some loss of muscular strength and stiffness. Muscular movements tend to be performed more slowly and with greater difficulty. There are some other symptoms, especially a tendency to lack of expressiveness in the face, which are often present.

### SLOW PROGRESS

Parkinson's disease is a slow process and tends to last for a great many years. There is no pain and the mental condition is usually normal except perhaps after the disease has existed for many years, when there may be some slowing of the mental process. There may be periods of improvement of the palsy.

People who have this condition should be especially careful to avoid fatigue. Although medicine does not have any cure or completely satisfactory treatment, there are several drugs which are often helpful in controlling the shaking.

Strenuous activity or enter-tainment should be avoided, but a fairly active life is good for most victims.

Question: Can a cataract in one eye be operated on when a cataract in the other is not ready for surgery?

Answer: This can be done and often is. However, the decision on operation for cataract requires experience, skill and judgment. Two patients are not always treated alike because there may be reasons, such as age, for operating or treating cataracts in different ways.

## May Make Further Appeal For Alberni Hospital Fund

PORT ALBERNI—W. H. Harding, president, informed a meeting here of the West Coast General Hospital Society that a canvass by the Community Chest to make up approximately \$10,000 which the chest requires to make up its \$100,000 share toward the new hospital, might be undertaken this spring.

Mr. Harding issued an appeal for full support of the Community Chest campaign so there would be no question of the necessary funds not being available to construct the new hospital.

## Thieves Get Cash, Cheques From Shop

Thieves who broke into the Golden Leaf Bakery, Douglas Street, opposite the Hudson's Bay Company store, Sunday night, escaped with \$60.50 in cash and four cheques made out for a total of \$107, city detectives reported today.

Entry was gained by forcing a back door. The break-in was discovered by D. McDougall of the firm at 9.30 at night.

### SMALL CHANGE

A new smelting unit to be installed at the Norwegian mint at Kongsberg will mean a 30 per cent increase in the output of

small change. This is expected to be raised to 100 per cent in April when new shipments of Canadian nickel will have been delivered.

The Dauntless Star of Lowestoft sailed on her first voyage as a trawler to catch herrings—and caught a mine. It was brought back here without causing damage.

## Bays Beat Wests As Senior Soccer Resumes

First division football returned to the local sports calendar Saturday, after a forced lay off of two months, with Oak Bay registering a 6 to 2 victory over Victoria West to take over leadership of the second half standings. The match scheduled Sunday between Canadian Legion and Esquimalt was called off owing to the former being unable to field a team.

With the players resuming action after such a long period of inactivity the calibre of play was all that could be expected. The Bays held a definite edge, especially in the closing stages when they ran in four goals without a reply.

Although they played through the entire first half with only 10

men the Bays were able to gain a two-goal lead on counters by Aln Thompson and Elmer Hodder. With the Bays at full strength for the final 45 minutes the Wests still were able to tie the score early in the half with Bernie Clarkson and Doug Gent hitting the twine.

Wests were reduced to 10 men when Gent was sent off the field for arguing with the referee. From that point until the closing whistle Oak Bay took command. Don Robinson put Bays ahead 3 to 2 on a goal from a penalty. Hodder added his second goal shortly after and Arnie Ferguson made it 5 to 2. Robinson added the sixth goal on a pretty individual play to close out the scoring.

## Vulcan's Forge Provides Thrill For Racing Fans

ARCADIA, Calif. (AP)—Racing through rain and over the sloppiest track in the history of the event, long shot Vulcan's Forge Saturday scored a resounding upset triumph in the \$100,000 Santa Anita Handicap.

The handsome chestnut with jockey Dave Gorman aboard, virtually ignored in pre-race calculations because he was supposed to be no mudder, whipped the on-coming, favored Dinner Gong by half a length.

Miss Grillo, the mud-loving mare from the Argentine, made a belated rush for the big purse but finished third.

The remnants of a rain-drenched crowd of 56,000—hundreds headed for home before the big race—mixed cheers and groans as the four-year-old, owned by I. J. Collins of Lancaster, O., held off the late challenge of Dinner Gong.

Vulcan Forge paid \$42,660 to win, \$22,460 to place and \$13,100 to show. Dinner Gong paid \$5,500 and \$4,100, and Miss Grillo \$6,500. The time for the 1 1/4-mile race was good considering the water-sloppy oval—2:02 4/5.

The Vulcan won a net \$102,000 for his efforts.

## Naval Vets Roll 3,715 For City Fivepin Title

Naval Vets No. 1 team of the Canadian Legion League won the city men's fivepin team bowling championship at Gibson's Bowl-drome over the week-end with a three-game total of 3,715 pins, 161 pins better than second-place Capital Cleaners.

Norm Cain was the individual star of the vets with a three-game total of 558 from scratch. Other members of the winning team included Jim Collins, Charlie Pugh, Wilf Shoultice and Lew White.

Other prize-winning teams were

Falcons 3,526, Eaton's 3,480, Half Shots 3,465, Chevrolets 3,368 and Horseshoe News 3,366.

### ELECTRONS WIN

In the mixed fivepin tourney Electrions captured the honors with a total of 3,626 pins. In second place was 7 Up with 3,511. Lucky Five, Club 450 and Maple Leafs completed the first five finishers.

Members of the Electrions' team were A. Mawer 451, D. Herdman 565, B. Ostler 682, D. Mawer 704 and F. Holtum 732.

## U.S. Fighters Have Troubles In Britain

LONDON (CP)—Britain hasn't held her head as high in the boxing ring since Bob Fitzsimmons was winning world titles at various weights 50 years ago.

The "blimey boys" are living down the unsavory reputation tabbed on them by United States sports writers a couple of decades ago and exemplified by Phil Scott, nicknamed "Phahting Phil." He was a heavyweight who toured the United States and often wound up horizontal.

No Yank professional boxer has won in Britain since Lloyd Marshall stopped an unfit Freddie Mills, now world light-heavyweight champion, in the fifth round June 3, 1947.

### EUROPEANS DO WELL

King, Canadian lightweight champion, annexed Billy Thompson's British Empire title last

fall and Cantor beat Thompson and promising Peter Fallon this year. Belters from France, Italy and Finland also have won in the United Kingdom recently, but no Americans.

United States losses have come in important matches, too. In October, 1947, Irishman Rinty Monaghan retained his world flyweight title by outpointing Dado Marino of Hawaii. And last July, Mills outpointed Gus Lesavich for the world light-heavyweight title.

Maybe British rings have become jinxed for American fighters. Even when the Yanks have been going well, something has turned up. Take the bout between Bruce Woodcock and Lee Savold. Savold had the fight sewed up, was stalking Woodcock, hooking him into position for a knockout when—the Briton fell to the canvas claiming a low blow and writhed until the referee gave him the fight on a foul.

## Chungranes, Murdoch Star In Roller Puck Games; Fight Seen

A pair of four-goal performances by Glen Murdoch of Oak Bay, and Dick Chungranes of Foul Bay, plus a real pier six free-for-all in the Oak Bay-James Bay game, marked yesterday's roller hockey twin bill at Stevenson Memorial Park.

Murdoch notched his four markers as Oak Bay shut out James Bay, 6 to 0. It was the first shutout of the season in league play and credit for the performance went to goalie Dave Carlow. Norm Baker and John Carlow scored the other two goals for the winners.

In the other tilt Chungranes paced Foul Bay to a 5 to 3 victory over Civil Service. MacEvay accounted for Foul Bay's other goal while Norm Coates with a pair and Mike O'Brien with a singleton scored for Civil Service. Satterfield got three assists for the winners.

The free-for-all broke out in

the second period of the Oak Bay-James Bay contest and saw both players and spectators taking part. Murdoch and Malcolm Preston each got five minute penalties and Norm Baker and Art Green two minutes. The fight broke out anew in the penalty box with Preston and Baker tossing blows.

Next week's games will be in the form of a benefit for Stan Pimlott who suffered a possible fractured hand in yesterday's game.

## Swedish Star In Thrilling Finish For Mile Victory

NEW YORK (AP)—Ingvar Bengtsson of Sweden won the Louis Zamperini mile at the intercollegiate indoor track and field championships Saturday night, stepping the 11 laps on the board track at Madison Square Garden in 4:10.2 before 10,000 fans.

The Swedish Olympic star came from behind with a lap and a half to go and scored by eight yards over Fred Wilt of New York Athletic Club, who had led at two stages of the race.

Two yards behind Wilt came Marcel Hansenne, the French 800-metre champion. Erik Ahliden of Sweden was fourth.

The most spectacular performance of the meet came Saturday afternoon when James Scholtz of army hurled the 35-pound weight 60 feet, 7 3/4 inches at a New York Army to better all existing records.

Garden fans were treated to a record breaking effort when Horace Smith of Michigan State scored a surprise triumph in the 60-yard high hurdles.

Smith stepped over the high sticks in 7.2 seconds, chopping a tenth of a second off the meet record set in 1940.

## 'Y' Swim Stars Win; Salmon Sets Mark

Coach Archie McKinnon's Flying "Y" swimmers marked up another triumph Saturday night at the Crystal Garden when they defeated the University of Washington freshmen, 42 points to 18, in the intercity competition. Although the Y's margin of victory was comfortable a number of the individual events produced keep competition for the spectators.

An added highlight of the meet was the establishing of a new Canadian record for the 150-yard individual medley by Peter Salmon of the Washington squad. Salmon, former star performer of the "Y" outfit, swimming against time, was clocked in 1:42.2, one-tenth of a second better than the mark set by Doug Brown of Toronto in 1946.

In addition to the intercity events, members of the "Y" team engaged in interclub competitions along with a display of precision swimming by the Aquabelles and a diving demonstration by Warren Williams and Meryn Hawes, a pair of "Y" midgets.

Results of the intercity events follow:

150-yard medley relay—Y.M.C.A. Time, 1:34.4.  
200-yard free style—B. Clayton, U. of W. Time, 2:15.  
100-yard breast stroke—L. D. Newton, U. of W. Time, 2:15.  
200-yard free style—H. Harris, Y.M.C.A. Time, 1:34.4.  
50-yard free style—H. Harris, Y.M.C.A. Time, 1:13.4.

## Regina Pats Grab Two-Game Lead In Junior Ice Playoff

Regina Pats today hold a two-game advantage in their best-of-seven semi-final Western Canada Junior Hockey League playoff series with Moose Jaw Canucks, an 8 to 2 victory Saturday night giving them their second straight decision.

In the other half of the semi-final bracket, Lethbridge Native Sons and Calgary Buffaloes fought to a 6 to 6 overtime stalemate. Buffs hold a 1 to 0 advantage in games.

The Pats, playing on home ice before 3,200 fans, jumped into a 3 to 0 first-period lead, outscored Canucks 3 to 2 in the middle frame and ramfined home two more unanswered counters in the third session.

Three goals by Bun Smith set the pace for the winners. At Lethbridge, meanwhile, 16 penalties, including majors to Don Berry of Lethbridge and Bob Hunt of Calgary, were handed out. Buffs led 3 to 2 at the end of the first period and the score was tied at 4 to 4 at the end of the middle frame. Following completion of regulation playing time, the score was 5 to 5. Each team scored once in the extra session.

## Middlecoff Captures Texas Golf Tourney

HARLINGEN, Tex. (AP)—Cary Middlecoff of Memphis, Tenn., Sunday won the \$10,000 Rio Grande Valley golf tournament with a 72-hole score of 267.

The Memphis dentist came in with a one-under-par 70 in the

final round to capture the \$2,000 first money.

Bob Hamilton of Landover, Md., won second money of \$1,400 with 269. He registered a 68 Sunday. E. J. Harrison of Little Rock captured third place with 270, while Skip Alexander of Southern Pines, N.C., and Ky Laffoon of St. Andrews, Ill., tied for fourth with 272 each.

SUNRISE and SUNSET (Pacific Standard Time)  
March 1—Rises 6:56 a.m., sets 6:57 p.m.

## Municipal Unions Fight Proposal To Limit Wage Negotiations By Law

Representatives of municipal employees' unions today branded as restrictive, vicious, outrageous, discriminatory and strike smothering the suggestions of the Union of B.C. Municipalities that all wage negotiations be wound up by Feb. 15 of each year.

The proposed amendment to the Municipal Act, passed by the U.B.C.M.'s convention in Harrison Hot Springs last year went before the legislative municipal affairs committee today. Half a dozen representatives of municipal employee groups spoke against it.

### MAYOR SURPRISED

Mayor Percy George of Victoria said that he had not been instructed by the U.B.C.M. to press the question and it had been merely put forward by the municipalities in the interests of the unions and the municipalities. He said he was sorry to hear the employees' representatives use the words outrageous and vicious to describe the proposal.

"I don't intend to be sticky on any date," said Mayor George. "Let it stay if you want. Are you happy to continue as it is?"

Jack Phillips, secretary of the Vancouver Civic Employees' Association, reported that his local, the largest in western Canada, the Trades and Labor Congress of Canada, and the Vancouver, New Westminster and District Trades and Labor Council, were all opposed to the measure. He pointed out that under the Industrial Conciliation and Arbitration Act it took 57 days of negotiations up to the appointment of a conciliation or arbitration board, yet the municipalities would limit to 31 days the time under which this process must be completed.

### IN INFERIOR POSITION

He said the measure would put civic employees in an inferior position.

Hugh Bird, chairman of the legislative committee of all B.C. firemen's unions, claimed that his unions had tried at all times to speed up negotiations, but delays had constantly, and, in his opinion in the case of Vancouver, deliberately been caused

by the mayor and council. He said it was impossible to bargain with municipal councils late in the year because the unions were accused of attempting to play politics with elections pending.

### 'UNNECESSARY'

Mr. Bird contended the proposed amendment was unnecessary, that the problem of the municipalities could be overcome by their speeding up negotiations.

In the opinion of Fred Dougherty, speaking on behalf of Vancouver, Victoria and New Westminster police unions, the proposed amendment would permit councils to stall until Feb. 15 and then say to the unions: "Well, boys, you've had it." He suggested it would permit the councils to slam the door in the face of the unions.

"We wouldn't have even a knob to open it," he said.

A. Tooth, representing electrical workers, suggested the proposed amendment would force labor to strike or threaten to strike to speed up negotiations.

"What you're asking is impossible," said W. H. Black of the Joint Council of Public Em-

ployees and representing 22 locals of municipal workers.

Suggesting the proposals were prompted by fear on the part of the municipalities and that the municipal employees did not want special legislation.

### THREATENS FRIENDSHIP

"If you are going to place us in that position it will mean the end of friendly negotiations."

Mayor George said the suggestion was made merely because the municipalities desired to clean up their houses and have all agreements come due at the end of the calendar year. Victoria had already started this and now had four or five agreements ending on Dec. 31, he said.

The proposal, he continued, would result in negotiations for new agreements starting toward the end of October and being completed by the year end.

Mr. Bird retorted that councils had been bitterly opposed to bargaining before elections and Mr. George, admitting this tendency on the part of the "dying councils," suggested the amendment would permit the unions to say: "You've got to" to the councils.

## Passenger On Bike In Fatal Accident Also In Hospital

John Turner, 22, 1814 Quadra Street, the passenger on the motorcycle in last Wednesday night's crash in which David A. Williams, aged 20, 855 Fort Street, the driver, was fatally injured, is in Jubilee Hospital under treatment for serious injuries.

Williams died in hospital at 1 Friday afternoon.

Jubilee Hospital attendants reported this morning Turner's condition was improved.

The son of Mr. and Mrs. Eric Turner, who moved from the Quadra Street address to Vancouver a month ago, Turner was taken to Hospital with Williams following the Herald and Douglas Streets collision between the

motorcycle and a car, but was released after a check-up.

Later, however, he was found to be suffering from head injuries. There is no skull fracture. Acute appendicitis has also set in to complicate the case. A dental mechanic with Dr. Gordon Grant, Turner is the owner of the motorcycle. He is a member of the Victoria Motorcycle Club and won the hill climb last Labor Day at Mount Douglas.

In city police court this morning a charge of dangerous driving was read against Roy Claude Grainger, Agate Lane, Cordova Bay.

Claude L. Harrison, city prosecutor, asked that this case be stood over until after the inquest Wednesday morning at 10 at McCall Bros. Funeral parlors to inquire into the death of Williams.

## A Bouquet For The Police From Children

Compliments to police for their many acts on behalf of citizens are rarely expressed, but on Saturday Chief of Police J. A. McLellan was in receipt of one letter of commendation signed by 20 youngsters of the Oaklands district.

The letter expressed thanks to the police for having the Ryan Street hill blocked off during the recent snow to allow children to enjoy sleighing uninterrupted by traffic. They said they had had a "swell time and the constables were very kind to us."

Victoria Amateur Fencers Club will hold its monthly meeting Tuesday night, at 9, at the Y.M.C.A.

### ANNOUNCEMENTS

After 18 years of service the Women's Workshop must close. Everything must be sold. Open daily from 10 a.m. Feb. 28 to March 12. Patrons, please pick up parcels, 624 Cormorant.

Championship dog show March 19 by Victoria City Kennel Club. Entry forms may be obtained from the secretary, 136 Wellington Avenue, Phone E 2536.

Cosmetics—Avon and other well known lines at Reimer's Beauty Salon, 743 View Street. Open evenings.

Mrs. Wilfrid Ord, voice and speech specialist, has been requested to form an evening choral speaking class for training effective voice and speech use and developing interpretive ability. Will those who wish to join please telephone: 9 to 10 mornings or evenings before Thursday, G 5525.

Royal Society of St. George quarterly social evening, 8 p.m., Wednesday, March 2, St. Michael's School, Oak Bay. Public invited.

We wish to announce that we have secured the services of A. C. (Bert) Page, late of Capital City Realty, 650 Cormorant Street, where he will be pleased to meet old and new friends. Hyland Thomas & Callin, 576 Yates Street, Phones B 4713 and B 1311, Members Victoria Real Estate Board.

## Church Attendance Jumps As Victoria Basks In Sunshine

Spring in all its glory was abounding in Victoria over the week-end and the citizenry took full advantage of it.

On Saturday the sun shone for 10 hours and 12 minutes and the temperature rose to 54 degrees, Sunday, six hours and 12 minutes of sunshine were recorded, and the temperature rose to 52.

The weather was far removed from that of the previous Sunday when snow covered the ground and drivers had to contend with slushy roads.

Church attendance picked up considerably because of the fine weather. Many who are not regular church attendants turned out at morning and evening services.

Dr. A. E. Whitehouse, minister of the Metropolitan Church, estimated the congregation there was up 50 per cent. Other churches reported similar increases.

City gardeners found their old urge to putter around in the good earth had returned with the good weather. Some made a start at turning over the ground in their back yards in preparation for seeding, but most considered the ground still too wet for this.

Quite a few lawns had their first trimming of the year.

Many motorists bundled their families into cars and went for an afternoon drive in the country, but found a lot of the rural roads in bad shape following recent frost, snow and rain.

Automobiles weren't essential to enjoyment of the day. Many went for bus rides while others used "Shank's Pony." Youngsters made up bicycle parties.

The foot path along the Dalles Road waterfront carried heavy traffic during the day and parks proved popular places for young couples and families with young children.

The improved weather took a load off the mind of George L. Warren, commissioner of the Victoria and Island Publicity Bureau and No. 1 booster of the local climate.

Mr. Warren arranged some

Maurice Anderson spent the afternoon cavorting around outdoors in swimming trunks. Even then, he claimed, he was "hot" and needed water from a nearby service station to keep "cool."

time ago to have a party of 100 members of the Olympic Peninsula Resort and Hotel Association visit this city over the week-end. As the time set for the visit drew close and the weather remained poor, Mr. Warren got busy trying to work out some kind of explanation.

The sun came out to greet the visitors on their arrival here Saturday, however, and Mr. Warren was spared the ordeal of explanation.

The visitors were favorably impressed with Victoria's climate by the time they left Sunday.

Others who won't soon forget the fine weather are the 130 H-Y girls from the mainland and interior who spent Saturday and Sunday here attending their annual provincial midwinter conference. All agreed the term "midwinter" seemed inappropriate.

F. Janos, Ronald Polson and Constable James Baxter.

The late Mr. Yarema is survived by his wife, Phyllis, who resides at 402 Bay Street; his parents, Mr. and Mrs. Frederick Yarema, 402 John Street, and three sisters, Sylvia, at home, Mrs. Rowland Gammache, Victoria, and Mrs. Jennie Madraga, Manitoba.

Jury foreman was Patrick O'Brien.

There will be a meeting of the Victoria Begonia Society in the boardroom of the Hotel Douglas on Wednesday evening at 7.30. H. Tebb and W. Turner will speak on begonia culture.

Yarema was last seen between 2.30 and 3 in the afternoon. The body was found at 8.45 in the evening of the same day by Cecil Daykin. Mr. Daykin, who is employed at the James Bay Lumber Co., said that he stopped off at the Dalziel mill to see if he could help police, who were conducting dragging operations. The body was found about 30 feet from a raft inside the boom pocket. Mr. Daykin located the body on the ocean bottom with a pike pole.

Questioned by Coroner E. C. Hart, the witness stated that the logs did not seem slippery, but the presence of sawdust made footing treacherous.

Reginald Hopkins, a sawyer at the same mill in which deceased was employed, said the victim had experience in boom work in the east before coming out to the city, but could not swim.

Other witnesses were Thomas

## Premier's Office, Red Cross Unite To Give Food Relief

Swift action during the week-end by the Premier's office and the Red Cross Society has provided food for hungry residents in the isolated communities of Halcyon and St. Leon Hot Springs on Upper Arrow Lake, 250 miles east of Vancouver.

Premier Byron Johnson was notified by telegram at 4.30 Saturday afternoon of the plight of the lake dwellers. The telegram said food supplies in the ice-locked centres were running short and would only last another 24 hours.

The Premier's staff got busy immediately and notified the provincial district engineer in the area concerned to report on how food could best be sent in to relieve the situation.

The engineer managed to reach Arrowhead where he found the ice covering the lake was too dangerous for surface travel but thick enough to prevent the lake supply boat from breaking through.

He notified the Premier's office of his findings at 8.30 Saturday night. The matter of getting relief through was then turned over to Col. J. Q. Gillan,

president of the Victoria and district Red Cross branch.

Col. Gillan immediately contacted Red Cross Commissioner C. Scott in Vancouver, who contacted Kelly Douglas, food wholesaler, and the R.C.A.F.

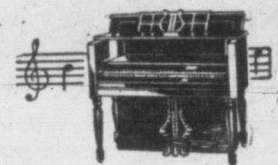

By 2.30 Sunday afternoon, two tons of foodstuff, packed in 40-pound bales, was on its way to Upper Arrow Lake in a R.C.A.F. Dakota aircraft.

The aircraft made 15 runs over the 4 two communities and dropped a two-week supply of food for the inhabitants.

The cargo included hay, oats, wheat, bran, potatoes, cereal, mixed vegetables and fruit juices, butter, prunes and tobacco.

George H. Millard, 2601 Burdick Street, appeared before Magistrate H. C. Hall at a special sitting of Oak Bay police court this morning and had a charge of common assault on his wife read against him. Case was adjourned to the regular sitting of the court Friday afternoon. Bail was set at \$50. No plea was entered. Gordon Cameron is his counsel.

## New Comedy Triumph At Capitol Theatre

If you loved "Miracle on 34th Street," "Sitting Pretty" and "Mother Wore Tights"—and what moviegoer didn't?—you'll go for "Chicken Every Sunday," the new comedy which opens at the Capitol Theatre today, starring Dan Dailey and Celeste Holm.

Neatly trimmed with the entertaining touches that made those Twentieth Century-Fox hits such cinematic delights, "Chicken Every Sunday" tells the story of life in a Tucson, Arizona, boarding house at the turn of the century. Based on Rosemary Taylor's best-selling novel, the film combines laughs with a light, human insight that keeps you alternately holding your sides and wiping your eyes.

### ODEON THEATRE

The important role of the heroic Captain Oates in Ealing Studios' production "Scott of the Antarctic," which is now at the Odeon Theatre, is played by Derek Bond, who achieved instant success with his first film role in "The Captive Heart."

The title role in "Nicholas Nickleby" followed, and he has since been seen in "The Loves of Joanna Godden," "Uncle Silas" and "Broken Journey." When he first heard that Michael Balcon was to produce "Scott of the Antarctic" he set his heart on playing the part of Oates. His ambition was fulfilled and he considers it his greatest screen role.

### To Choose Singers

Auditions for vocal artists for Victoria's Theatre Under the Stars will be held Tuesday night at 7:30 in the School of Theatrical Arts, 1318 Broad Street. Auditions for dancers will be held at a later date.

The outdoor theatre, sponsored by the Victoria Theatre Foundation, is expected to open during the latter part of June. Among the operettas to be presented are "The Merry Widow" and the "Song of Norway."

Theatre officials are also anxious to obtain a few dramatic artists for dramatic bits in some of the musical operas. Those interested are asked to contact Warren Martin Wednesday, Thursday or Friday.

### Where To Go Tonight

(An Advertised)

**ATLAS**—"Night Has a Thousand Eyes," starring Edward G. Robinson.

**CAPITOL**—"Chicken Every Sunday," starring Dan Dailey.

**DOMINION**—John Steinbeck's "The Pearl," with Groucho Marx and Carmen Miranda.

**OAK BAY**—"Deep Waters," with Dana Andrews and Jean Peters.

**ODEON**—"Scott of the Antarctic," starring John Mills.

**PLAZA**—"Good Time Girl," starring Jean Kent and Dennis Price.

**ROYAL**—"On the Stage, Mata and Hari and their comedy dancers."

## Calgary, Regina Register Wins In Prairie Hockey

CALGARY (CP)—Calgary Stampers nosed out Edmonton Flyers, 5 to 4, in a Western Canada Senior Hockey League game here Saturday night. The Edmonton loss assures Regina Caps of finishing up the league schedule in first place.

In the first period, Edmonton went one up on a breakaway from the face-off by Billy Maher. Stamps tied it up at the half-way mark on a goal by Denny Huddleston. Edmonton then got one up again at the close of the period on a counter by Gordie Watt.

Stamps tied it up at the start of the middle session on a counter by Johnny Millard, then went two up on quick goals by Bob Brownridge and Don Culey.

The league-leading Regina club Saturday night defeated the last-place Saskatoon Quakers, 9 to 3.

Ab McDougall led the Caps scorers with four goals, while Mel Hill tallied twice and singles went to Chuck McCullough, Vic Myles and Sweeney Schriener. Reg Bentley, Bob Goodacre and Ab Collings scored for Saskatoon.

## Police Called In As U.S. Ice Team Brawls At Stockholm

STOCKHOLM (AP)—Members of the United States hockey team got involved in another fist-swinging affair Sunday—this time including spectators—and the Swedish Ice Hockey Association protested to the American Embassy.

Police had to be called in to calm down both players and spectators at the Olympic Stadium ice rink where the Americans defeated Soedertaele Sporting Club 4 to 2.

The United States team was involved in a similar brawl here two days ago.

It was also in the Olympic Stadium that Canada's entry in the world amateur hockey championships, Sudbury Wolves, were criticized for their rough style of play in the tournament.

### WOLVES WIN

PRAGUE (CP)—Sudbury Wolves, runners-up in the world amateur hockey championships at Stockholm, Sunday defeated a Moravia team 9 to 1.

Saturday the Canadians tied the title-holding Czech team 3 to 3. They tied the count in the last minute of play after taking goalie Al Picard off the ice and putting on six forwards.

## Sports Round-Up

By JOHN CHANDLER

NEW YORK (AP)—Old Rockport, the flying horses Olympia and Ocean Drive, and Reville have been grabbing most of the three-year-old headlines on the winter racing circuit.

Which brings up the annual question: Where will they be on Saturday, May 7? That is, along about 4:30. When the band gives with "My Old Kentucky Home" and some 100,000 frenzied turf patrons cheer while the 1949 Derby champion gets the blanket of red roses at Churchill Downs. Only thing certain is it won't be Reville, for trainer Bert Mulholland said the colt wasn't nominated for the classic.

### DERBY IF'S

Could be Old Rockport, winner of the \$100,000 Santa Anita Derby last Saturday, Olympia or Ocean Drive might make the Derby grade. Reville is demonstrating some class down in Florida, and probably will be seen in the Wood Memorial, Preakness and other top three-year-old races.

But the plain fact is that the big boys, such as Blue Peter, Mr. Busher, and Capot have yet to trot into the 1949 racing scene. The three named—Blue Peter was the 1948 two-year-old champion colt—have been quietly getting into condition at winter quarters in South Carolina.

The horse that can handle those three stands a good chance to land the Derby roses, plus the better part of the \$100,000 Col. Matt J. Winn will shell out for the winner.

### NOTHING OUTSTANDING

There is no Citation this spring scaring the three-year-olds into hiding. Nothing has come along yet capable of running over everything in the scramble for triple crown honors.

Ocean Drive won the Hibiscus at Hialeah and Olympia took second. They were flown to Santa Anita. Olympia won the San Felipe. Ocean Drive was fifth and Old Rockport ninth. Two weeks later Old Rockport jumped the dome in the Santa Anita Derby. Olympia was second this time. Ocean Drive, seventh. Reville copped the Everglades at Hialeah last Wednesday.

**COALTOWN BREEZES HOME** MIAMI, Fla. (AP)—Calumet Farm's mighty Coaltown breezed to a two-length victory in the \$50,000 added Widener Handicap at Hialeah Saturday.

Dixiana's stable's Shy Guy was second and Calumet's Faultless was third. Cherry Oak Stable's First Nighter was fourth. Stud Poker, owned by E. E. Voynow, was fifth and Mrs. E. Du Pont Weir's Royal Governor was last.

## Intriguing Mystery

A film that fulfills the intriguing promise of its title—"Night Has a Thousand Eyes"—arrived today at the Atlas Theatre with co-stars Edward G. Robinson, Gail Russell and John Lund to thrill, excite and vastly entertain audiences.

The Paramount picture, based on the novel by famous mystery writer Cornell Woolrich, tells a most unusual story. It concerns the dilemma of a man (Robinson), central figure of a vaudeville mental wizardry act, who suddenly discovers that he can actually foretell the future. His strange power at first gets the act out of its financial difficulties and sets his partner (Jerome Coward) on the road to vast wealth. But then it becomes a portent of tragedy, warning him of coming events he cannot face.

## Rangers To Receive Badges In Hospital

Colquitz Rangers will receive their badges in rather unusual surroundings next Thursday.

Badges will be awarded in St. Joseph's Hospital by Mrs. Freeman King, divisional commissioner for Saanich Girl Guides, who fractured her leg 18 days ago. She has been in hospital since then.

The ceremony will start at 7:15 p.m. Girl Guide officials will be present. The ceremony was scheduled to be held at the home of Mrs. Freeman King where the Colquitz rangers hold their meetings.

## Sea Cadet Parades

Ship's company of the Royal Canadian Sea Cadets will parade on Tuesday and Friday evenings of this week at 7:30 at headquarters, R.C.S.C. Rainbow.

Duty rotation for Tuesday will be Skeena, with Lieut. Taylor duty officer. Band will be duty division Friday with Midshipman Ross as duty officer.

Any boy over 14 and five feet three inches in height wishing to join the sea-cadets is asked to report at either of the above parades.

## IN TODAY'S MAIL

In today's mail comes this interesting idea:  
To the (Scribe) at HUMBER'S,  
Dear Sir:  
I am writing to you to acquaint you with an idea that occurred to me when I saw hundreds of children sitting on the Parliament steps last May, waiting for the May Queen. I thought then, if they only had a little song to sing or chant while waiting, how much nicer it would be for them, and everybody else... a Song about Victoria.

A verse came to my mind... and STUCK... and to the tune of Percy Grainger's (in a Country Garden), children could be invited to contribute other verses in a little contest. Well, I am no poet or musician, but here is my verse, and for what it is worth, and I know you are good for a dozen verses more.

**Victoria's Own Song**  
There's no place on earth,  
Where I'd rather be,  
Than... Beautiful Victoria  
Sparkling mountains and  
glistening sea,  
Than... Beautiful Victoria.  
You can believe it,  
I'll never leave it,  
I love... Victoria.  
There's no place on earth,  
I'd rather be,  
Than... Little Old Victoria.  
—I wish to remain anonymous.

P.S.—If this does not appeal to you, please pass the idea along to my favorite announcer, Mr. Al Collins of CIVL.

Dear Mrs. Anonymous:  
The idea DOES appeal to us, especially as our own 24th of May-Time is coming up again... and real soon, too. I feel sure that when the official of the 24th of May Committee read your idea, they, too, will want to take it up from here. So... come on girls & boys... send in your verses... let's see HOW MANY we can add to the 2 above, and we'll pass them on to the Committee.

**Number's**

## They'll Do It Every Time

TODAY'S CAST-IRON MEDAL FOR SHEER CRUST GOES TO THE HOTEL GUESTS WHO THROW A NOISY, ALL-NIGHT PARTY

AND JUST BEFORE STAGGERING TO BED HAVE THE UNMIGATED GALL TO HANG A SIGN LIKE THIS ON THEIR DOOR

## Govt. Prepares For Night Sittings

The B.C. government is paving the way for night sittings during the current session of the Legislature.

The necessary resolution to provide for this has been placed on the order paper by Premier Byron Johnson, to be moved Tuesday. It provides that after Wednesday of next week there may be two distinct sittings of the Legislature, the first from 2 to 6, the second from 8 to adjournment.

The fact that the government is making provision for night sittings to start next Wednesday does not, however, mean that the night sittings will be called.

## Durango Calls Here

The Royal Mail Line's Durango arrived at Ogden Point dock at 8 a.m. Saturday, discharged general cargo and liquor from the United Kingdom, then proceeded to Vancouver.

He said none of the 14 passengers aboard the passenger-freight vessel disembarked here. Two Courtenay women were booked for Victoria, but decided to continue on to the mainland. The Durango will leave Vancouver for the U.K. about March 4.

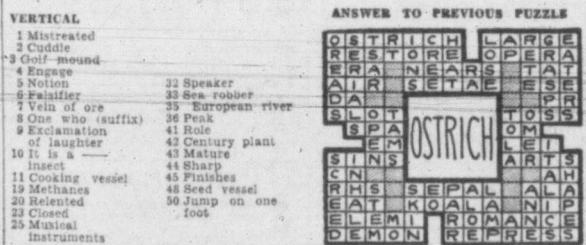

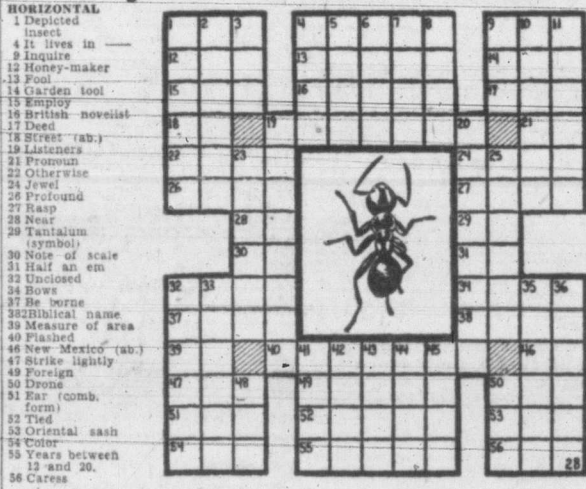

## Irrigation Project

The Provincial government, by order-in-council, has turned over to the Veterans' Land Act director 1,130 acres northwest of Westbank which the V.L.A. will develop as an irrigation project for veteran settlement.

The project is one of several under consideration for the interior of the province.

Westbank is opposite Kelowna on Okanagan Lake.

## Today's Crossword Puzzle

## Bridge Wm. E. McKenney America's Card Authority

SIX CLUBS MAKES, BUT 3 N.T. IS OFF. Some of the most exciting rubber bridge games in the country are those at the New York Bridge Whist Club, according to Life Master Harry Feinberg, formerly of Cleveland and now in charge of the club's card room. Harry says they take their bridge very seriously, and the cards go right along with them to make it a serious game.

Today's make came up in a duplicate game recently held at the club. At several tables South made three no trump. At one table four no trump was made, at another three no trump went down one. Six spades was made, and six spades also was defeated. At one table Prof. Ernest Zerner arrived at six clubs with the bidding shown, and that was the only contract on this hand that could not be defeated.

Following is the play used by Mrs. Sylvester Gintell to defeat three no trump. Declarer won the opening heart lead with the ace and laid down the ace of spades. West played the deuce, dummy the three and Mrs. Gintell (East) played the eight spot. Declarer reasoned that if the spade break was a bad one, he would find the spades in the West hand, so he cashed his other high spade and went down to defeat. Six spades also was defeated with nice play. Declarer won the opening heart lead and ruffed a heart in dummy, then took two rounds of trumps and led a club. If West had made the mistake of cashing the ace then, there would have been nothing to the hand. However, he refused the first club and won the second. East was careful to play first the eight and then the deuce, show-

## Company Glee Club To Aid Solarium Fund

Ernest G. Dawson, whose choral group entries won four leading awards at the 1948 B.C. Musical Festival, is conductor of the B.C. Electric Glee Club from Vancouver which will present a musical program in the Empress ballroom Wednesday evening at 8:15 under auspices of the Solarium Junior League. The 26-voice male glee club will bring as assisting artists, Miss Nora Grennan, CBC lyric soprano, to sing selections by Greig, Gounod, Romberg and Bayly, and Wallace King, concert violinist, playing choices from Mozart, Weinawski and Cesar Cui. All proceeds go to the Solarium Fund.

### THE GREATEST STORY EVER TOLD

By Fulton Oursler

During the Lenten Season, the Victoria Times will present, in 40 daily instalments, one of the most beautiful and inspiring stories ever written. It is the distinguished work of Fulton Oursler, "The Greatest Story Ever Told." Faithfully retelling the story of the life of Christ, it has been hailed by religious leaders of all creeds and faiths. Strikingly illustrated. Watch for this feature.

### STARTS MARCH 2

in the VICTORIA TIMES

## Three-Day Meeting Of Island Unions Set For Nanaimo

Delegates representing Canadian Congress of Labor affiliated unions on Vancouver Island will attend a three-day education institute in Nanaimo next Saturday and Monday.

On the opening day A. R. Mosher, president of the Canadian Congress of Labor, will be guest speaker at a banquet in the Malaspina Hotel.

The first two days will be devoted to trade union educational classes covering the following subjects: Duties of a job steward, grievance procedure and collective bargaining; labor legislation; union finance and structure; how to make a local more effective; how to conduct a meeting; and current economic problems.

Instructors will include A. Andras, assistant director of research, C.C.L., and chairman of congress educational committee; Harold Conquergood, education and welfare director, United Steel Workers of America; Alex McDonald, Vancouver lawyer; Harry Chappell, general representative, Canadian Brotherhood of Railway Employees and Other Transport Workers and Steward Jamieson, professor of economics at the University of British Columbia.

The last day will be devoted to a political action workshop conducted by Murray Cotterill, political action director, C.C.L. In the evening a rally of all trade unionists in the Nanaimo area will be addressed by Mr. Mosher and Mr. Cotterill.

Thirty delegates representing eight Victoria local C.C.L. unions will attend.

The institute forms part of a \$250,000 educational program sponsored by the C.C.L. and will be conducted in major centres of the Dominion.

## Woodhouse Elected Bureau President

W. Len Woodhouse, former reeve of Oak Bay, today was elected president of the Victoria and Island Publicity Bureau at a meeting of the bureau's directors in the Chamber of Commerce board room.

Named to serve on the finance committee were Mayor Percy George, chairman; Ald. D. D. McTavish, J. V. Johnson, W. J. Clark, Harold Husband and G. H. Stevens.

## Airpark Association Wants Part Profit If Gordon Hd. Land Sold

If the city should sell the Gordon Head airpark property at a profit, the Memorial Airpark Association wants a proportion of the profit in recognition of \$5,000 it has spent in improving the land, it was learned today.

P. D. P. Holmes, secretary of the association, said the organization is prepared to release an agreement with the city on development of the land for small-plane flying, on this condition.

The association believes the condition is reasonable in that a great deal of work has been carried out by its members in leveling, draining and seeding the property, Mr. Holmes said.

"We are confident the mayor and City Council will appreciate the obligation the association has towards its members who have invested so liberally in the project," he added.

In releasing the agreement, the association would receive a \$2,000 "good faith" bond from the city.

The City Council, at its last meeting, agreed to hold the land for possible use in the future as a flying field. The agreement with the association therefore could stand, but the association is anxious for the return of the bond to repay a loan.

It is expected the matter will be dealt with by the council at its meeting Tuesday.

## Objects To Rezoning James Bay Property

Strong opposition to proposed rezoning of property at the northwest corner of Douglas and Superior Streets to allow construction of a confectionery store in a district set aside for apartment use was received today at the City Hall.

Mrs. F. M. Grogan, 668 Superior Street, who owns property in the district, complained that a confectionery store "not only would be out of harmony with the existing buildings in the neighborhood, but its operation would disturb the quietness of the surrounding district."

Application for the rezoning was made last week by Chris Hurmeuses, 543 St. Patrick Street, a restaurant proprietor forced to vacate his present business premises, who said he desired to start in a new type of business.

## Grandson Of First American Consul Dies In Victoria

Francis Hofercamp, a grandson of the first American consul in Victoria, died Sunday night in Mount St. Mary's Hospital where he had been a patient for the past two years. He was 86 years of age.

His grandfather, Allen Francis, was appointed American consul in Victoria in 1862 by Abraham Lincoln. Mr. Francis came with his family from Springfield, Ill., and made his home on upper Pandora Avenue.

He served in this city for more than 20 years, during which time U.S. Secretary Seward called here on his way to arrange for purchase of territory of Alaska by the U.S.

Mr. Hofercamp was a bachelor. Thomson's Funeral Home is in charge of funeral arrangements.

## Withdraw Offer To Erect Traffic Sign

The city has lost an opportunity to have a traffic safety sign erected on Gorge Road near Washington Avenue free of charge.

Associated Sign and Display Men of Victoria offered a month ago to build and maintain the sign on the Island Highway approach to the city.

The offer was referred to the public works committee which has failed to take action, and the sign men notified the city today they must withdraw their proposal.

They explained that at the time the offer was made, business was slack and the work could have been done in spare time. But their busy season is here now.

## Adjutant-General Inspects Defences In Victoria Area

Ten high-ranking officers of the Canadian Army are today inspecting defence installations in the Victoria area.

In the party are three generals—Maj.-Gen. E. G. Weeks, adjutant-general; Maj.-Gen. H. D. Graham, vice-chief of General Staff, and Maj.-Gen. M. H. S. Penhale, general officer commanding, Western Command.

This morning, the group carried out inspections at Mary Hill, Albert Head, the Canadian Services College at Royal Roads, and returned to Work Point Barracks for lunch.

During the afternoon, a tour of Work Point, including the Royal Canadian School of Artillery, was made.

This evening, Maj.-Gen. Weeks and Maj.-Gen. Graham will meet reserve force officers of the Victoria area at a United Services Institute meeting in Bay Street Armouries.

Others in the group include Col. M. S. Dunn, director of administration; Col. A. G. Cherrier, director of personnel; Lt.-Col. C. A. Peck, representative of the directorate of military training; Lt.-Col. G. H. MacDonald, representative of the Quartermaster-General, and Capt. J. Williams, military assistant to the vice-chief of General Staff. All are from Ottawa.

Western Command officers include Lt.-Col. G. Weir, assistant adjutant, quartermaster-general, and Capt. G. C. Short, aide-de-camp to the general officer commanding.

## Found Guilty On Break-Enter Charge

Ralph R. Golar was found guilty today in city police court by Magistrate H. C. Hall on a charge of breaking and entering a hotel room with intent to commit theft.

After accused had declined to go in the witness box and tell his story, Magistrate Hall remanded him to Tuesday for sentence.

Evidence of James "Mike" Nichol was that the defendant came into his Station Hotel room around 2 last Sunday morning, tore the pictures off the wall, threw groceries around the room and generally upset things. Complainant said he was lying on his bed, fully clothed and that Golar came over and searched all his pockets.

Nichol quoted Golar as saying to the other man who came into the room with him—Alvin Strom—

"He should have some money because he got paid Saturday. Strom said he followed Golar to the room but did not see him do anything."

Detective Norman Bath, who attended with Detective Fearon Woodburn, told of finding the room in a state of disorder. The lock was broken off the door. Detective Bath said Golar was arrested later in Chinatown.

## Portland Man Named Chiropractic Bureau President For 1949

Dr. Paul Firth of Portland was elected president of the Northwest Chiropractic Research Bureau for 1949 as the group concluded its annual meeting at the Empress Hotel Sunday.

Succeeding Dr. Firth to the post of vice-president is Dr. A. C. Close, Vancouver. Named secretary-treasurer was Dr. E. Hutah, Tacoma.

At morning sessions Saturday and Sunday, Dr. B. J. Palmer, head of the B. J. Palmer Chiropractic Clinic at Davenport, Ia., spoke on recent developments in the field.

He pointed out that a chiropractor need not diagnose as must a physician. This, he said, was because a chiropractor has a different approach than a physician.

Dr. Palmer said that a chiropractor is not interested in effects, but is concerned with cause.

Dr. Elmer G. Green of Seattle, told the 100 delegates present from all over the Pacific Northwest that chiropractic is separate and apart from every other healing art.

Because of this, Dr. Green advocated separate rules and regulations for chiropractors for the best protection of the health and welfare of the general public.

Presiding over the two-day sessions was Dr. John M. Sturdy, Victoria, retiring president. He is the first Canadian to hold the office.

## Thieves who got into the 811 Union Building office of Gordon Cameron, barrister, during the week-end took \$15 from the cash drawer, city police were informed.

## THE CORPORATION OF THE CITY OF VICTORIA

### Tenders For Supplies

Sealed tenders will be received by the undersigned up until noon on Monday, March 13, 1949, for supplying the following to the City of Victoria for the remainder of this year and until new contracts are let in 1950:

Sand, Gravel and Rock Milk Bread Fish Cement Coal

Specifications and further particulars may be obtained from the Purchasing Department. A certified deposit cheque equal to 5% of the amount of tender, made payable to the City Treasurer, must accompany each tender. Envelope containing tender to be marked "Tender for Annual Supplies."

The lowest or any tender will not necessarily be accepted.

G. J. SHARPE, City Purchasing Agent.

City Hall, Victoria, B.C., February 26th, 1949.

## Mild Buying Sends Market Up

NEW YORK (AP)—Mild buying demand was enough to send the stock market up in the midst of quiet trading.

Gains ranged from fractions to a point or more among the leading issues.

Steels and rails provided leadership, but advances were scattered widely among individual issues throughout the list.

Airlines were somewhat backward, a reaction from the gains

of last Saturday. Utilities were mixed but the plus signs outnumbered the losses by a small margin.

Dow Jones closing averages:  
30 Industrials 173.06, up 1.44  
20 rails 47.71, up 0.76  
15 utilities 34.56, up 0.14  
65 stocks 63.37, up 0.57  
Total sales, 740,000.

## GOODBYE CONSTIPATION!

Woman gets lasting relief eating famous cereal

Wish you could stop worrying about constipation? Then read this unsolicited letter:

"I suffered for years until a friend said 'try KELLOGG'S ALL-BRAN'. I tried it and was wonderful! I eat ALL-BRAN every day now—it has never failed! I want to tell all who are constipated to try this fine Kellogg cereal." Miss Yolande Lord, 6 Deslauriers St., Quebec.

If you suffer from constipation due to lack of bulk in the diet, you may be free of it for life if you eat an ounce of KELLOGG'S ALL-BRAN daily and drink plenty of water. ALL-BRAN is not a purgative, but a cereal or in muffins for natural results. If after using a package you are not completely satisfied, get double your money back as guaranteed on the package. Get delicious ALL-BRAN from your grocer today. Made by Kellogg's of London, Ontario.

## Prices Ahead in Light Trading

## Grain

WINNIPEG (CP)—Oats and barley futures prices took on a firmer trend in a noticeable lead-up in selling and offerings on the Winnipeg Grain Exchange. Some processor and shipper demand was evidenced in both coarse grains.

Strength in Chicago rye was reflected in the same commodity at Winnipeg, with commission houses on the buying side. American interests also were credited with purchases in rye.

Trading was moderately active in all grains.

# EATON'S MAIL ORDER SERVICES

## IN BRITISH COLUMBIA

**TWENTY ORDER OFFICES** throughout the Province to make British Columbia's **EATON Mail Order Shopping** thriftier and more convenient than ever!

**MORE CONVENIENT**—Because, at each Order Office, a trained staff is ready to help you. They will assist as you make out your order and fill in the form, and can give you helpful information about Deposit Accounts, Budget Buying, length of time required for shipment.

**THRIFTIER**—Because in many instances an appreciable saving in shipping charges can be effected by doing your Mail Order shopping through the nearest Order Office.

**QUICKER**—Because you can shop by TELEPHONE for the whole family. Just look up the Order Office telephone number, and give the catalogue numbers, price and description of your requirements by phone. The office staff will do the rest, and advise you of costs and date when shipment can be expected.

**PLEASE REMEMBER**—When shopping at your Order Office, be sure to give the address to which your copy of the catalogue should be sent.
